Anti Aging Hormone Peptide Epithalon 10mg / Vial For Improve Skin

Our Product Introduction

Basic Information

- Place of Origin: China
- Brand Name: Hongbaiyi
- Certification: COA, HPLC MR
- Model Number: HBY-Epitalon
- Minimum Order Quantity: 5box
- Price: US $ 50-57 / box
- Packaging Details: 10mg/vial, 10vials/box
- Delivery Time: 3-5 work days after your payment
- Payment Terms: MoneyGram, Western Union, T/T
- Supply Ability: 3000kg/Month

Product Specification

- Peptide Name: Epithalon
- Alias: Epitalon
- Molecular Formula: C14H22N4O9
- Molecular Weight: 390.35
- CAS No.: 307297-39-8
- Appearance: White Powder
- Peptide Purity: 99%
- Highlight: **Anti Aging Hormone Peptide Epithalon**, **Peptide Epithalon 10mg / Vial**, **Peptide Epithalon Improve Skin**

Product Description

Anti-Aging Hormone Peptide Epithalon 10mg/vial For Improve Skin

Basic Information Form of Epithalon

Peptide Name	Epithalon
Alias	Epitalon
CAS NO.	307297-39-8
Appearance	White Powder
Molecular Weight	390.35
Molecular Formula	C14H22N4O9
Peptide Purity	99%
Stability	2 years

What Is Epithalon

Although aging is inevitable, it wouldn't hurt to keep it at bay as long as possible, would it? Unfortunately, this is easier said than done. The anti-aging market is not short of 'elixirs' that promise to reverse signs of aging such as wrinkles and sagging skin.

There is no doubt that some of these products work, particularly those made with the right combination of ingredients. But what if there could be an anti-aging product that worked better, reaching down to the very core of our DNA to restore the integrity of our cells and reverse aging? Fortunately, this particular elixir does exist, and it is called Epitalon.

Epitalon (also spelled Epithalon or Epithalone) is a synthetic variation of Epithalamin; a peptide secreted in the pineal gland of the brain. The pineal gland is a small pea-shaped gland sometimes referred to as 'the third eye.' It is more famous for secreting melatonin, the hormone associated with regulating our sleep/wake cycles.

Epitalon, often touted as 'the fountain of youth,' is a peptide made of four amino acids. These are alanine, glutamic acid, glycine, and aspartic acid. Peptides are short-chain amino acids that comprise two to fifty chains, which differentiate them from proteins (proteins have more than fifty chains). This peptide increases the natural production of telomerase, an enzyme that aids cells in producing telomeres, the productive parts of our DNA. The production of telomeres helps the body to produce new cells and rejuvenate the old ones.

Unfortunately, as we age, our bodies produce less and less telomerase. This affects cell replication resulting in aging. Epitalon is designed to reverse this process.

Epitalon was discovered by Vladimir Khavinson, a Russian professor who studied it and conducted human and animal trials for over 35 years. These trials proved that this peptide is quite effective in fighting aging.

Epitalon is part of the new age 'peptide therapies,' an emerging science that uses peptides to signal different cells in the body to trigger different chemical reactions. These reactions have far-reaching effects on wound healing, muscle building, weight loss, and anti-aging.

The Benefits Of Epithalon

It lengthens telomeres, which promotes cell replication and rejuvenation, extending life expectancy
It helps prevent age-related diseases such as dementia
It has antioxidant effects, protecting cells from damage caused by oxidation
Promotes better sleep
Accelerates wound healing
It boosts energy and decreases stress
Improves skin health and appearance
It normalizes the circadian rhythm

Package and Shipping of Epithalon

Package: 10mg/vial, 10vials/box

Shipping: With 3-5 days after your payment

FAQ of Epithalon

Q1: Do you Accept Sample Order?
A: Yes. The smallest order we accept is one box.

Q2: Do you accept VISA business credit card?
A: Yes. VISA business credit card is in our payment.

Q3: How long does it take to me if I order?
A: About 3-5 days upon recepient of payment.

Q4: Is there any discount?
A: Yes, if you want to purchase larger quantity, we can offer a better price for you.

Q5: What kind of transportation do you have?
A: We have many ways of transportations, eg: Air, Sea, Special Lines, TNT, FEDEX, EMS, ect.
