

White HGH Growth Hormone Peptide Powder Epitalon Peptide For Anti Aging

Our Product Introduction

for more products please visit us on peptide-powder.com

Basic Information

- Place of Origin: China
- Brand Name: Hongbaiyi
- Certification: COA, HPLC MR
- Model Number: HBY-Epitalon
- Minimum Order Quantity: 5box
- Price: US \$ 50-55 / box
- Packaging Details: 10mg/vial, 10vials/box
- Delivery Time: 3-5 work days after your payment
- Payment Terms: , Western Union, T/T
- Supply Ability: 3000kg/Month

Product Specification

- Name: Epithalon Peptide
- Alias: Epitalon
- MF: C₁₄H₂₂N₄O₉
- MW: 390.35
- CAS No.: 307297-39-8
- Appearance: White Powder
- Fineness: 99%
- Specifications: 10mg/vial, 10vials/box
- Highlight: white HGH growth hormone peptide, epitalon peptide for anti aging, tirzepatide peptide powder

Product Description

White Human Growth Hormone Peptide Powder Epitalon Peptide For Anti Aging

Basic Information Form of Epitalon Peptide

Peptide Name	Epithalon Peptide
Alias	Epitalon Peptide
CAS NO.	307297-39-8
Appearance	White Powder
MW	390.35
MF	C ₁₄ H ₂₂ N ₄ O ₉
Fineness	99%min
Specifications	10mg/vial, 10vials/box
Stability	2 years

What Is Epitalon Peptide

Epitalon is a synthetic peptide designed to reverse aging and increase lifespan.

The anti-aging drug replicates a natural peptide in the body known as Epithalamin.

Epithalamin allows you to stay and feel younger since it stimulates the production of telomerase.

Telomerase is essential to aging since it protects your DNA from outside mechanisms in the body seeking to destroy it.

Therefore, you receive cellular protection at the microscopic level.

Epitalon also regulates metabolism (critical to weight loss) thanks to its ability to serve as a telomerase activator.

Moreover, Epitalon peptide has the rare ability to influence stress and tension in the body.

Epitalon has also been shown to normalize functions of the endocrine system.

The endocrine system is connected to so many vital functions in the body including growth and development, hormones, metabolism, and reproduction.

Another noteworthy characteristic of Epitalon is that it regulates critical levels of melatonin and gonadotropins.

Epitalon is extracted from the pineal gland and was first synthesized by Vladimir Khavinson, a Russian professor and gerontologist.

The Benefits Of Epitalon Peptide

The benefits of Epitalon are expanding as more research is dedicated to the anti-aging drug. Epitalon is primarily designed to reverse the signs of aging like wrinkles and loss of energy. It focuses on the damaging effects produced by stress and tension in the body. As a result, Epitalon targets stress and tension while also serving as a telomerase activator. The activator is essential to preserving your DNA while also stimulating new growth in aging cells. The end result is the hope for a healthier, more vivacious life (even into your elderly years). The top benefits of Epitalon peptide include:

Anti-Aging Properties

Reduced Stress & Tension

Improved Sleep

Prolonged Cell Life

Normalized Cell Function

Epitalon focuses on improving the A) immune system and B) neuroendocrine system.

The latter is especially important to your emotional and mental health.

Package and Shipping of Epitalon Peptide

Package: 10mg/vial, 10vials/box

Shipping: With 3-5 days after your payment

FAQ of Epitalon Peptide

Q1: Do you Accept Sample Order?
