

High Purity White Powder Epitalon Anti Aging 10mg / Vial CAS 307297-39-8

Our Product Introduction

for more products please visit us on peptide-powder.com

Basic Information

- Place of Origin: China
- Brand Name: Hongbaiyi
- Certification: COA, HPLC MR
- Model Number: HBY-Epitalon
- Minimum Order Quantity: 5box
- Price: US \$ 50-58 / box
- Packaging Details: 10mg/vial, 10vials/box
- Delivery Time: 3-5 work days after your payment
- Payment Terms: MoneyGram, Western Union, T/T
- Supply Ability: 3000kg/Month

Product Specification

- Name: Epitalon Anti Aging
- Alias: Epithalon Epitalone
- CAS No.: 307297-39-8
- MF: C14H22N4O9
- MW: 390.3
- Appearance: White Powder
- Specifications: 10mg/vial, 10vials/box
- Purity: 99%
- Highlight: 307297-39-8 Epitalon Anti Aging, Epitalon Anti Aging 10mg / Vial, epitalon powder 10mg / Vial

Product Description

High Purity White Powder Epitalon Anti Aging 10mg/vial CAS 307297-39-8

Basic Information Form of Epitalon Anti Aging

Peptide Name	Epitalon Anti Aging
CAS NO.	307297-39-8
Facade	White Powder
MW	390.35
MF	C14H22N4O9
Purity	>99%
Specifications	10mg/vial, 10vials/box
Stability	2 years

What Is Epitalon Anti Aging

During research for the next fight against aging, the discovery of epitalon occurred. Epitalon is a synthetic version of a polypeptide known as Epithalamin, which is something our body naturally produces in the pineal gland. The primary role of epitalon is to increase the body's natural production of telomerase. Telomerase is the protective part found on DNA, allowing for the replication of DNA, so the body can rejuvenate older cells and grow new cells.

When people are younger, they produce longer telomeres and more significant telomerase. Longer strands of telomeres mean that there is better replication and cell health. Unfortunately, as people get older, they produce less telomerase. This leads to a reduction in cell replication, and the overall health starts to decline. This is what leads to aging.

This is also important to regulate metabolism, normalize how the anterior pituitary functions, increase the sensitivity of the hypothalamus to the natural influence of hormones, and regulate the levels of melatonin and gonadotropins.

The Benefits Of Epitalon Anti Aging

Slows the aging of cell populations by stimulating the renew and elongation of telomeres at the ends of chromosomes in DNA

Slowing of aging / anti-aging effect, rejuvenation
 Prevention of cancer and age-related diseases
 Restores and normalizes Melatonin production by the Pineal gland
 Strong anti-oxidant properties, protects against oxidative stress, act against the effects of free radicals
 Increases the activities of the antioxidant enzymes superoxide dismutase, glutathione peroxidase, and glutathione-S-transferase
 Reduces lipid oxidation and ROS (reactive oxygen species) together with normalization of T cell function (increases interferon gamma production by T cells)
 Better, deeper sleep and its quality
 Improves metrics of physical endurance, circadian rhythm, and carbohydrate and lipid metabolism
 Healthier skin, inhibits the synthesis of the MMP9 protein in vitro in aging skin fibroblasts
 Positive clinical effect in Retinitis pigmentosa disease

Package and Shipping of Epitalon Anti Aging

Package: 10mg/vial, 10vials/box

Shipping: With 3-5 days after your payment

FAQ of Epitalon Anti Aging

Q1: Do you Accept Sample Order?

A: Yes. The smallest order we accept is one box.

Q2: Do you accept VISA business credit card?

A: Yes. VISA business credit card is in our payment.

Q3: How long does it take to me if I order?

A: About 3-5 days upon receipt of payment.

Q4: Is there any discount?

A: Yes, if you want to purchase larger quantity, we can offer a better price for you.

Q5: What kind of transportation do you have?

A: We have many ways of transportations, eg: Air, Sea, Special Lines, TNT, FEDEX, EMS, ect.
