

Glass Bottles 99% Purity White Powder Peptide Ace 031 Prevents Muscle Loss

Our Product Introduction

for more products please visit us on peptide-powder.com

Basic Information

- Place of Origin: China
- Brand Name: Hongbaiyi
- Certification: COA, HPLC MR
- Model Number: HBY-ACE 031
- Minimum Order Quantity: 5box
- Price: Negotiation
- Packaging Details: 1mg/vial, 10vials/box
- Delivery Time: 3-5 work days after your payment
- Payment Terms: MoneyGram, Western Union, T/T
- Supply Ability: 3000kg/Month

Product Specification

- Peptide Name: Peptide ACE 031
- Alias: ACVR2B
- Appearance: White Powder
- Specification: 1mg/vial
- Peptide Purity: 99%min
- Shelf Life: 2 Years
- Highlight: **Glass Bottles Peptide Ace 031, 99% Purity Peptide Ace 031, Ace 031 Prevents Muscle Loss**

Product Description

Glass Bottles 99% Purity White Powder Peptide Ace 031 Prevents Muscle Loss

Basic Information Form of Peptide ACE 031

Name	Peptide ACE 031
Alias	ACVR2B
Aspect	White Powder
Purity	99%min
Specifications	1mg/vial, 10vials/box
Stability	2 years

What Is Peptide ACE 031

ACE 031 is a protein therapeutic developed by Acceleron Pharma to treat Duchenne Muscular Dystrophy (DMD) and soluble form of activin receptor type IIB (ActRIIB) that helps in muscle growth. Studies have shown it helps in improving muscle growth by binding to myostatin and other negative controllers of muscle mass.

Research shows that it has been developed to help address muscle weakness and deterioration for research purposes. This is a symptom of many neuromuscular diseases, including muscular dystrophy.

ACE-031 works by hindering the action of specific proteins in the body, such as myostatin. Myostatin acts as natural 'brakes' to bound muscle growth and size. Studies have shown the muscle grows larger and stronger when these substances are prohibited from working on muscle cells. ACE031 is hoped to help maintain or enhance muscle in patients who have muscular dystrophy.

Since ACE 031 is a protein therapeutic, research has suggested it regulates the muscle growth by proteins in the body which serve as on or off switches. It consists of a recombinant fusion protein that is created by linking a portion of the human ActRIIB receptor to a part of a human antibody which helps the muscle growth.

When the peptide reduces the off signal that sops the muscle production, muscles become stronger. It helps in building up the muscles and in increasing strength by preventing a bait receptor which binds myostatin before it muddles with (ActRIIB) active type II receptor For Research Only.

The Benefits Of Peptide ACE 031

- Increases lean body muscle mass
- Increases metabolism
- Improves body strength
- Promotes tissue and muscle repair
- Increases bone density
- Potential treatment of Duchenne Muscular Dystrophy (DMD)
- Prevents muscle loss

Package and Shipping of Peptide ACE 031

Package: 1mg/vial, 10vials/box

Shipping: With 3-5 days after your payment

FAQ of Peptide ACE 031

Q1: Do you Accept Sample Order?

A: Yes. The smallest order we accept is one box.

Q2: Do you accept VISA business credit card?

A: Yes. VISA business credit card is in our payment.

Q3: How long does it take to me if I order?

A: About 3-5 days upon receipt of payment.

Q4: Is there any discount?

A: Yes, if you want to purchase larger quantity, we can offer a better price for you.

Q5: What kind of transportation do you have?

A: We have many ways of transportations, eg: Air, Sea, Special Lines, TNT, FEDEX, EMS, ect.
