

High Purity Polypeptide Hormones AOD 9604 CAS 221231-10-3 For Bodybuilding

Our Product Introduction

for more products please visit us on peptide-powder.com

Basic Information

- Place of Origin: China
- Brand Name: Hongbaiyi
- Certification: COA, HPLC MR
- Model Number: HBY-AOD-9604
- Minimum Order Quantity: 5box
- Price: Negotiable
- Packaging Details: 2mg/vial, 10vials/box
- Delivery Time: 3-5 work days after your payment
- Payment Terms: , Western Union, T/T
- Supply Ability: 3000kg/Month

Product Specification

- Name: AOD-9604
- CAS NO.: 221231-10-3
- Chemical Formula: C78H123N23O23S2
- Molecular Weight: 1815.08
- Storage: Closed, Below 2 ~ 8°C Preservation
- Purity: 99%
- Shelf Life: 2 Years
- Highlight: **Polypeptide Hormones AOD 9604, AOD 9604 CAS 221231-10-3, AOD 9604 For Bodybuilding**

Product Description

High Purity Polypeptide Hormones AOD 9604 CAS 221231-10-3 For Bodybuilding

Basic Information Form of AOD 9604

Name	AOD 9604
CAS NO.	221231-10-3
Purity	99%
Molecular Formula	C78H123N23O23S2
Molecular Weight	1815.08
Appearance	White Powder
Storage	Closed, below 2 ~ 8°C preservation
Stability	2 years

What Is AOD 9604

AOD9604 is a synthetic analog of the lipolytic domain of human GH. It is not a GHRH (growth hormone releasing hormone) like Modified GRF 1-29, and it is not a GHRP (growth hormone releasing peptide) like GHRP-2, or GHRP-6. AOD9604 actually acts on the reduction of excessive adipose tissues such as those in the abdominal area, increase in muscle mass, and enhances the lipid content of the body. It is also known as lipotropin and Tyr-hGH fragment, and is generally available these days as a transdermal cream or an injectable.

Fat Loss

AOD9604 is a peptide fragment of the C-terminus of Human GH (Tyr-hGH177-191), which controls the fat reducing characteristics of HGH, without its negative consequences. AOD9604 shows a reduction of body fat in the mid abdominal area in both obese, over-weight, and average built people.

AOD9604 is more effective than its predecessor AOD9401 in its ability to stimulate lipolytic (fat burning) and anti-lipogenic activity. Like Growth Hormone, AOD9604 stimulates lipolysis (the breakdown or destruction of fat) and inhibits lipogenesis (prevents the transformation of fatty food materials into body fat).

AOD stands for "Anti Obesity Drug". This peptide has an amino acid sequence that mimics the lipolytic region of human growth hormone (the region of this hormone thought to be responsible for burning fat) and it has been promoted variously as a weight loss supplement, as an aid to muscle and cartilage repair, and a treatment for osteoarthritis by its manufacturers.

AOD-9604 released fat specifically from obese fat cells but not from lean ones, reduced new fat accumulation in all fat cells and enhanced the burning of fat. AOD-9604 reduces body fat in obese subjects and enhanced fat burning without changing food consumption or inducing growth (as it does not increase IGF levels) or any other unwanted GH effect.

Benefits Of AOD 9604

Cartilage repair
 Metabolism regulation
 Enhanced muscle growth
 Insulin and blood sugar management
 Reduced body fat
 Decrease the development of new fat
 Regulate the body's metabolism
 Stimulate the release of fats from fat cells
 Help treat osteoarthritis and bone repair

Package and Shipping of AOD 9604

Package: 2mg/vial, 10vials/box

Shipping: With 3-5 days after your payment

FAQ of AOD 9604

Q1: Do you Accept Sample Order?

A: Yes. The smallest order we accept is one box.

Q2: Do you accept VISA business credit card?

A: Yes. VISA business credit card is in our payment.

Q3: How long does it take to me if I order?

A: About 3-5 days upon receipt of payment.

Q4: Is there any discount?

A: Yes, if you want to purchase larger quantity, we can offer a better price for you.

Q5: What kind of transportation do you have?

A: We have many ways of transportations, eg: Air, Sea, Special Lines, TNT, FEDEX, EMS, ect.
