Product Description

Polypeptide Weight Loss Tesamorelin 2mg CAS 218949-48-5 For Bodybuilding

Basic Information Form of Tesamorelin 2mg

Name	Tesamorelin 2mg
Cas No.	218949-48-5
Appearance	White Lyophilized powder
Molecular Formula	C ₂₂₁ H ₃₆₆ N ₇₂ O ₆₇ S
Molecular Weight	5135.8
Purity	99%min
Shelf Life	2 years

What Is Tesamorelin 2mg

Tesamorelin is a synthetic peptide consisting of all 44 amino acids of hGRF with the addition of a trans-3-Hexenoic acid group. Tesamorelin / Egrifta is a synthetic form of growth-hormone-releasing hormone which is used in the treatment of HIV-associated lipodystrophy, which consisting of all 44 amino acids of hGRF with the addition of a trans-3-Hexenoic acid group.

Tesamorelin has been shown to reduce lipodystrophy in HIV-infected individuals. Lipodystrophy is a condition that causes changes in placement of body fat, including wasting and fat accumulation, and changes in metabolism. Similar to Tesamorelin is Sermorelin, which may be taken with GHRP-6 in clinical trials, that also promotes production and possible fat loss.

How to use tesamorelin

Use tesamorelin as directed by your doctor. Check the label on the medicine for exact dosing instructions.

An extra patient leaflet is available with tesamorelin. Talk to your pharmacist if you have questions about this information.

Tesamorelin is usually given as an injection at your doctor's office, hospital, or clinic. If you will be using tesamorelin at home, a health care provider will teach you how to use it. Be sure you understand how to use tesamorelin. Follow the procedures you are taught when you use a dose. Contact your health care provider if you have any questions.

Do not use tesamorelin if it contains particles, is cloudy or discolored, or if the vial is cracked or damaged. Use the proper technique taught to you by your doctor. Inject deep under the skin, NOT into a vein or muscle.

Be sure to rotate your injection site on the stomach area with each dose as directed. Do not inject tesamorelin into scar tissue, bruises, or the belly button.

Tesamorelin needs to be mixed before use. Follow how to mix as you were told by the doctor.

Do not prepare tesamorelin until you are ready to use it. After mixing, use tesamorelin right away and throw away any unused medicine. Do not store prepared doses for later use.

Keep this product, as well as syringes and needles, out of the reach of children and away from pets. Do not reuse needles, syringes, or other materials. Ask your health care provider how to dispose of these materials after use. Follow all local rules for disposal.

If you miss a dose of tesamorelin, use it as soon as possible. If it is almost time for your next dose, skip the missed dose and go back to your regular dosing schedule. Do not use 2 doses at once.

Ask your health care provider any questions you may have about how to use tesamorelin.
