

99% Purity Human Growth Body Building Peptides Hormone Dsip Peptide

Our Product Introduction

for more products please visit us on peptide-powder.com

Basic Information

- Place of Origin: China
- Brand Name: Hongbaiyi
- Certification: COA, HPLC MR
- Model Number: HBY-Dsip
- Minimum Order Quantity: 5box
- Price: US\$ 35-43/ box
- Packaging Details: 2mg/vial, 10vials/box
- Delivery Time: 3-5 work days after your payment
- Payment Terms: , Western Union, T/T
- Supply Ability: 4000kg/Month

Product Specification

- Name: Dsip Peptide For Sale
- CAS: 62568-57-4
- MF: C35H48N10O15
- MW: 848.81
- Purity: 99%min
- Appearance: White Powder
- Shelf Life: 2 Years
- Highlight: **Body Building Peptides Dsip, 99% Purity Dsip Peptide, Hormone Dsip Peptide**

Product Description

99% Purity Human Growth White Powder Hormone Peptide Dsip Peptide For Sale

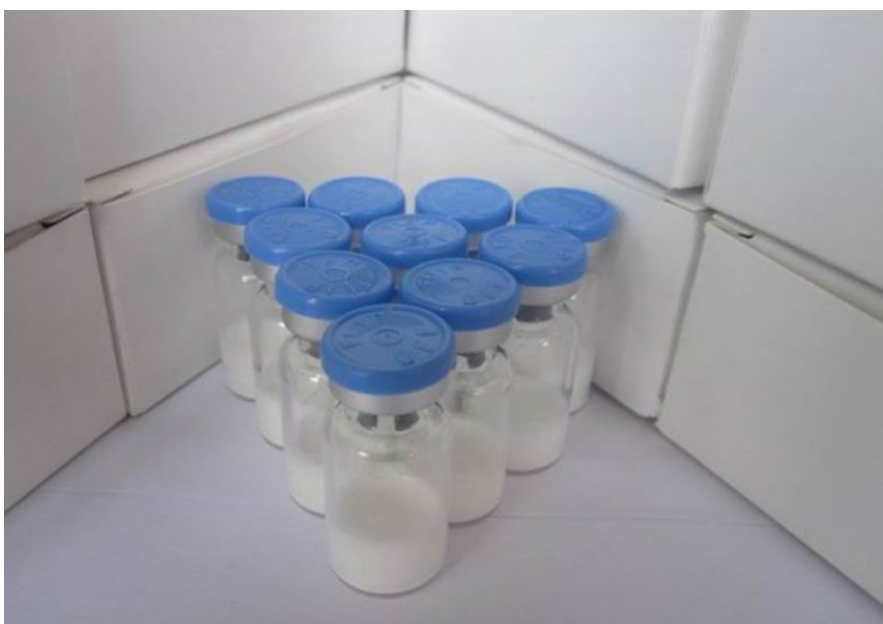

Basic Information Form of Dsip Peptide For Sale

Name	Dsip Peptide For Sale
Appearance	White Powder
Cas No.	62568-57-4
MF	C35H48N10O15
MW	848.81
Purity	99%min
Storage	-18°C
Shelf Life	2 years

What Is Dsip Peptide For Sale

DSIP (Delta sleep-inducing peptide) is a well-known neuromodulator and natural sleep-promoting nonapeptide with many other physiologic functions. It is typically found in the brain and easily passes the blood-brain barrier. It has been discovered and heavily studied for over 40 years. It has been used for the treatment of poor sleep, pain conditions, stress-related symptoms, low testosterone (via stimulation of LH), and even sometimes as an antioxidant and anti-cancer protein. It exhibits a pronounced stress protective action and decreases stress-induced metabolic and functional disorders in human and animal organisms exposed to a variety of stresses. It has also been shown in research to improve hormone levels and physical performance.

Research of Dsip Peptide For Sale

The Delta sleep-inducing peptide (DSIP) is a naturally occurring substance isolated from a rabbit back in 1977.

This substance is a nonpeptide which is synthesized in the hypothalamus and targets different sites like the brainstem.

Suggested by its name, the Delta Sleep-Inducing Peptide promotes sleep, which has been demonstrated in:

Rabbits
Mice
Rats
Cats

And even human beings.

It even promotes a kind of sleep, which is known to be an increase in the rhythm of the delta for EEG.

In countless several species, the DSIP at low doses has been shown by studies to promote sleep. Even if its physiological role still needs to be clarified, it again illustrates many concepts that can be used for brain peptides. These include:

The bell-shaped dose-response curve

Central effects after peripheral administration

Delayed and prolonged-time course

And the penetration of blood barrier in intact form

It also has concepts that apply to others, one neuropeptide, which means it is also applicable to others.

Let's try to discuss the study of the Delta Sleep-Inducing Peptide.

The influence of the DSIP was actually studied in 16 insomniac patients. The subjects were made to sleep for five straight nights in the laboratory.

Here's the definition for each night's activity:

Night 1: was for adaptation

Night 2: was for baseline measurements

During the afternoon of the 3rd, 4th, and 5th night, the patients were given 25nmol/kg body weight DSIP, and half of the patients were given a placebo.

Afterwhich, the measures for sleep structure, objective and subjective sleep quality for tiredness were evaluated.

And the results?

The objective sleep quality indicated a higher sleep efficiency and shorter sleep latency with DSIP than the placebo.

Another measure of subjectivity estimated tiredness was seen to decrease within the DSIP group.

Although, the data analysis suggested that the effects may be because of the change in the placebo group. Since there were no measures that showed changes, it was concluded that the short-term treatment of chronic insomnia is not a major therapeutic benefit.

Although in several species, DSIP in low doses promotes sleep.

Package and Shipping of Dsip Peptide For Sale

Package: 2mg/vial, 10vials/box

Shipping: With 3-5 days after your payment

FAQ Of Dsip Peptide For Sale

Q1: Do you Accept Sample Order?

A: Yes. The smallest order we accept is one box.

Q2: How long does it take to me if I order?

A: About 3-5 days upon receipt of payment.

Q3: Do you accept VISA business credit card?

A: Yes. VISA business credit card is in our payment .

Q4: Is there any discount?

A: Yes, if you want to purchase larger quantity, we can offer better price for you.

Q5: What kind of transportation do you have?

A: We have many ways of transportations, eg: Air, Sea, Special Lines,TNT, FEDEX, EMS, ect.
