

99% Purity Antineoplastic Growth Hormone Peptides Triptorelin

Our Product Introduction

for more products please visit us on peptide-powder.com

Basic Information

- Place of Origin: China
- Brand Name: Hongbaiyi
- Certification: COA, HPLC MR
- Model Number: HBY-Triptorelin
- Minimum Order Quantity: 5 box
- Price: US \$ 38-44 / box
- Packaging Details: 2mg/vial, 10vials/box
- Delivery Time: 3-5 work days after your payment
- Payment Terms: , Western Union, T/T
- Supply Ability: 3000kg/Month

Product Specification

- Name: Triptorelin
- CAS No.: 57773-63-4
- Chemical Formula: C₆₄H₈₂N₁₈O₁₃
- Molecular Weight: 1311.45
- Purity: 99.5%
- Appearance: White Powder
- Shelf Life: 2 Years
- Highlight: **Antineoplastic Growth Hormone Peptides, 99% Purity Peptides Triptorelin, Antineoplastic Peptides Triptorelin**

Product Description

99% Purity Antineoplastic Growth Hormone Peptides Triptorelin

Basic Information Form of Triptorelin

Peptide Name	Triptorelin
CAS NO.	57773-63-4
Molecular Formula	C ₆₄ H ₈₂ N ₁₈ O ₁₃
Appearance	White Lyophilized Powder
Peptide Purity	99.5%
Molecular Weight	1311.45
Storage	Lyophilized it should be stored in a freezer below -8C for any extended period of time

What Is Triptorelin

Triptorelin, a decapeptide (pGlu-His-Trp-Ser-Tyr-D-Trp-Leu-Arg-Pro-Gly-NH₂), is a gonadotropin-releasing hormone agonist (GnRH agonist) used as the acetate or pamoate salts. Triptorelin raises testosterone levels by causing constant stimulation of the pituitary, it decreases pituitary secretion of gonadotropins luteinizing hormone (LH) and follicle stimulating hormone (FSH). Like other GnRH agonists, triptorelin may be used in the treatment of hormone-responsive cancers such as prostate cancer or breast cancer, precocious puberty, estrogen-dependent conditions (such as endometriosis or uterine fibroids), and in assisted reproduction.

Triptorelin is a gonadotropin-releasing hormone agonist (GnRH agonist). used as the acetate or pamoate salts.

Triptorelin raises testosterone levels by causing constant stimulation of the pituitary, it decreases pituitary secretion of gonadotropins luteinizing hormone (LH) and follicle stimulating hormone (FSH).

Triptorelin is used medically for the treatment of hormone-responsive cancers such as prostate cancer or breast cancer in women. Triptorelin is marketed under the brand names Decapeptyl, Diphereline and Gonapeptyl.

In the United States, it's sold by Watson as Trelstar. Its used to cause total cessation of pituitary hormonal output, including testosterone.

Applications of Triptorelin

Triptorelin raises testosterone levels by causing constant stimulation of the pituitary, it decreases pituitary secretion of gonadotropins luteinizing hormone (LH) and follicle stimulating hormone (FSH). Like other GnRH agonists, triptorelin may be used in the treatment of hormone-responsive cancers such as prostate cancer or breast cancer, precocious puberty, estrogen-dependent conditions (such as endometriosis or uterine fibroids), and in assisted reproduction.

Uses

Triptorelin is used to treat advanced prostate cancer in men. It is not a cure. Most types of prostate cancer need the male hormone testosterone to grow and spread. Triptorelin works by reducing the amount of testosterone that the body makes. This effect helps slow or stop the growth of cancer cells and helps relieve symptoms such as painful/difficult urination. This medication is similar to a natural substance made by the body (luteinizing hormone releasing hormone-LHRH). Talk to your doctor about the risks and benefits of treatment.

How to use Triptorelin Acetate and dosage

Triptorelin is usually given once every 4, 12, or 24 weeks. Your dose schedule will depend on the strength of triptorelin you are using. Follow all directions on your prescription label. Do not use this medicine in larger or smaller amounts or for longer than recommended.

Triptorelin is injected into a muscle. You may be shown how to use injections at home. Do not self-inject this medicine if you do not understand how to give the injection and properly dispose of used needles and syringes.

Triptorelin is a powder medicine that must be mixed with a liquid (diluent) before using it. If you are using the injections at home, be sure you understand how to properly mix and store the medicine.

Do not shake the mixed medicine or it may foam. Prepare your dose only when you are ready to give an injection. Do not use if the medicine has changed colors or has particles in it. Call your pharmacist for new medicine.

While using triptorelin, you may need frequent blood tests.

Each single use vial (bottle) of this medicine is for one use only. Throw away after one use, even if there is still some medicine left in it after injecting your dose.

Package and Shipping of Triptorelin

Package: 2mg/vial, 10vials/box

Shipping: With 3-5 days after your payment

FAQ of Triptorelin

Q1: Do you Accept Sample Order?

A: Yes. The smallest order we accept is one box.

Q2: Do you accept VISA business credit card?

A: Yes. VISA business credit card is in our payment.

Q3: How long does it take to me if I order?

A: About 3-5 days upon receipt of payment.

Q4: Is there any discount?

A: Yes, if you want to purchase larger quantity, we can offer a better price for you.

Q5: What kind of transportation do you have?

A: We have many ways of transportations, eg: Air, Sea, Special Lines, TNT, FEDEX, EMS, ect.
