

High Purity 5Mg / Vial Peptide Gonadorelin Human Growth Hormone

Our Product Introduction

for more products please visit us on peptide-powder.com

Basic Information

- Place of Origin: China
- Brand Name: Hongbaiyi
- Certification: COA, HPLC MR
- Model Number: HBY-Gonadorelin
- Minimum Order Quantity: 5 box
- Price: US \$ 46-51/ box
- Packaging Details: 5mg/vial, 10vials/box
- Delivery Time: 3-5 work days after your payment
- Payment Terms: , Western Union, T/T
- Supply Ability: 3000kg/Month

Product Specification

- Name: Gonadorelin For Sale
- Chemical Formula: C55H75N17O13
- Molecular Weight: 1182.3
- CAS No.: 33515-09-2
- Appearance: White Powder
- Fineness: 99.6%
- Shelf Life: 2 Years
- Highlight: **5Mg / Vial Peptide Gonadorelin, High Purity Peptide Gonadorelin, 5Mg / Vial Human Growth Hormone**

Product Description

High Purity 5Mg/Vial Human Growth Hormone Peptide Gonadorelin For Sale

Basic Information Form of Gonadorelin For Sale

Peptide Name	Gonadorelin For Sale
CAS NO.	33515-09-2
Chemical Formula	C55H75N17O13
Molecular Weight	1182.3
Appearance	White Powder
Purity	99.6%
Shelf life	2 years

Brief Introduction of Gonadorelin For Sale

Gonadorelin is another name for gonadotropin-releasing hormone (GnRH). It is a synthetic decapeptide prepared using solid phase peptide synthesis. GnRH is responsible for the release of follicle stimulating hormone and leutinizing hormone from the anterior pituitary.

GnRH is available as gonadorelin hydrochloride)and gonadorelin diacetate tetrahydrate for injectable use. Studies have described it being used via an infusion pump system to induce ovulation in patients with hypothalamic hypogonadism. It is also used in veterinary medicine as a treatment for cattle with cystic ovarian disease.

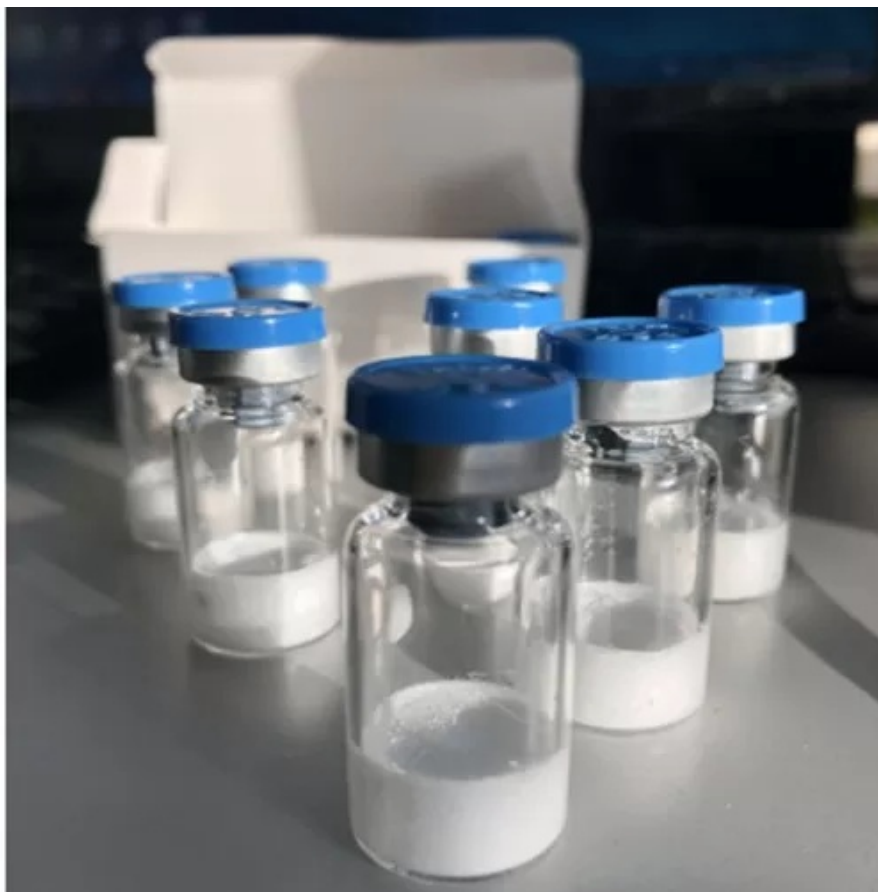

How does it work?

Gonadorelin is a hormone that is naturally produced by the hypothalamus in the brain. Also known as gonadotropin releasing hormone or GnRH.

Gonadorelin stimulates the pituitary to release sex hormone luteinizing hormone (LH) and follicle stimulating hormone (FSH). In women, FSH stimulates estrogen production and ovarian development. LH stimulates ovaries to release eggs (ovulation). In men, LH stimulates testis to produce hormone testosterone, FSH stimulates testis to produce sperm.

Gonadorelin was given by injection to check whether the pituitary gland was producing LH and FSH. This can help diagnose various hormonal disorders, including infertility, delayed adolescence and hypogonadism.

Functions of Gonadorelin For Sale

Gonadorelin is a medicine that is the same as gonadotropin-releasing hormone (GnRH) that is naturally released from the hypothalamus gland. GnRH causes the pituitary gland to release other hormones (luteinizing hormone [LH] and follicle-stimulating hormone [FSH]). LH and FSH control development in children and fertility in adults.

Gonadorelin is used to test how well the hypothalamus and the pituitary glands are working. It is also used to cause ovulation (release of an egg from the ovary) in women who do not have regular ovulation and menstrual periods because the hypothalamus gland does not release enough GnRH. Gonadorelin may also be used for other conditions as determined by your doctor.

Package and Shipping of Gonadorelin For Sale

Package: 5mg/vial, 10vials/box

Shipping: With 3-5 days after your payment

FAQ of Gonadorelin For Sale

Q1: Do you Accept Sample Order?

A: Yes. The smallest order we accept is one box.

Q2: Do you accept VISA business credit card?

A: Yes. VISA business credit card is in our payment.

Q3: How long does it take to me if I order?

A: About 3-5 days upon receipt of payment.

Q4: Is there any discount?

A: Yes, if you want to purchase larger quantity, we can offer a better price for you.

Q5: What kind of transportation do you have?

A: We have many ways of transportations, eg: Air, Sea, Special Lines, TNT, FEDEX, EMS, ect.
