

86168-78-7 Sermorelin Peptide 2mg / Vial For Gaining Weight And Building Muscle

Our Product Introduction

for more products please visit us on peptide-powder.com

Basic Information

- Place of Origin: China
- Brand Name: Hongbaiyi
- Certification: COA, HPLC MR
- Model Number: HBY-Sermorelin
- Minimum Order Quantity: 5 box
- Price: US \$ 35-39 / box
- Packaging Details: 2mg/vial, 10vials/box
- Delivery Time: 3-5 work days after your payment
- Payment Terms: MoneyGram, Western Union, T/T
- Supply Ability: 3000kg/Month

Product Specification

- Peptide Name: Sermorelin Peptide
- Molecular Formula: C149H246N44O42S
- Molecular Weight: 3357.9
- CAS No.: 86168-78-7
- Peptide Purity: 99.2%
- Appearance: White Lyophilized Powder
- Shelf Life: 2 Years
- Highlight: **86168-78-7 Sermorelin Peptide, 2mg / Vial Sermorelin Peptide, Sermorelin Peptide For Gaining Weight**

Product Description

Sermorelin Peptide 2mg/Vial For Gaining Weight and Building Muscle CAS 86168-78-7

Basic Information Form of Sermorelin Peptide

Product Name	Sermorelin Peptide
CAS NO.	86168-78-7
Molecular Formula	C149H246N44O42S
Molecular Weight	1024.2
Appearance	White Powder
Peptide Purity	99.2%
Stability	2 years

Brief Introduction of Sermorelin Peptide

Sermorelin is a GHRH (growth hormone-releasing hormone) peptide analogue. Its peptide sequence is comprised of 29 amino acids. This sequence is a portion of the endogenous human GHRH, and is currently considered to be the shortest synthetic peptide that possesses the full array of functional GHRH activity. Due to this fact, sermorelin is considered to be a growth hormone secretagogue.

Sermorelin has been used during research to stimulate the secretion of growth hormone from the adenohypophysis (also called the anterior pituitary). The anterior pituitary secretes trophic hormones. Sermorelin has also been used in research stimulation tests to assess for pituitary sufficiency in relation to the secretion of the growth hormone.

Applications of Sermorelin Peptide

Sermorelin (Hotel) (trade identify is actually Geref), also known as GHRH (1-29), is really a growth hormone-releasing bodily hormone (GHRH) analogue employed as being an analytical reator. It is just a 29-amino acidity polypeptide which represents your 1-29 fragment from endogenous individual GHRH, and is also regarded as your quickest fully functional fragment regarding GHRH. It can be utilized like a analytic adviser to

gauge growth hormones (GH) secretion.

Sermorelin acetate may be the acetate salt of the amidated man made 29-amino acid solution peptide (GRF 1-29 NH Two) that will corresponds to the particular amino-terminal segment with the natural human being growth -releasing hormone (GHRH or even GRF) comprising 46 amino acid remains.

It energizes the pituitary gland for you to effortlessly generate greater numbers of individual growth . Sermorelin Acetate is often a truncated analog of a expansion issuing factor (GRF 1-44) that is certainly naturally manufactured by mental performance in order to stimulate pituitary output of human being growth .

Package and Shipping of Sermorelin Peptide

Package: 2mg/vial, 10vials/box

Shipping: With 3-5 days after your payment

FAQ of Sermorelin Peptide

Q1: Do you Accept Sample Order?

A: Yes. The smallest order we accept is one box.

Q2: Do you accept VISA business credit card?

A: Yes. VISA business credit card is in our payment.

Q3: How long does it take to me if I order?

A: About 3-5 days upon receipt of payment.

Q4: Is there any discount?

A: Yes, if you want to purchase larger quantity, we can offer a better price for you.

Q5: What kind of transportation do you have?

A: We have many ways of transportations, eg: Air, Sea, Special Lines, TNT, FEDEX, EMS, ect.
