

Gains Cutting Cycle Testosterone Powder Anabolic Steroid Test Cypionate Ester

Our Product Introduction

for more products please visit us on peptide-powder.com

Basic Information

- Place of Origin: China
- Brand Name: Hongbaiyi
- Certification: COA, HPLC MR
- Model Number: HBY-Testosterone
- Minimum Order Quantity: 1KG
- Price: Negotiable
- Packaging Details: Aluminum Bag or 25KG/Febr Drum
- Delivery Time: 3-5 work days after your payment
- Payment Terms: , Western Union, T/T
- Supply Ability: 4000kg/Month

Product Specification

- Product: Testosterone Cypionate
- Molecular Formula: C₂₇H₄₀O₃
- Molecular Weight: 412.60
- Cas No.: 58-20-8
- Purity: 99%
- Apperance: White Powder
- Melting Point: 98.5-104°C
- Shelf Life: 2 Years
- Highlight: Gains Cutting Testosterone Powder ,
Gains Cutting Test Cypionate Ester ,
Anabolic Steroid Test Cypionate Ester

Product Description

Gains Cutting Cycle Testosterone Anabolic Steroid Testosterone Cypionate / Test Cyp

Basic Information form Of Testosterone Cypionate:

Product Name	Testosterone Cypionate
Cas No.	58-20-8
Purity	99%min
Appearance	White powder
MF	C ₂₇ H ₄₀ O ₃
MW	412.60
Melting point	98.5-104°C
Shelf life	2 years

What Is Testosterone Cypionate:

Testosterone cypionate is a steroid hormone from the androgen and is found in mammals and other vertebrates, testosterone cypionate is primarily secreted in the tests of mails and the ovaries of female, although small amount are also secreted by the adrenal glands, testosterone cypionate is the principle male sex hormone and an anabolic steroid.

Testosterone Cypionate is the longest-estered testosterone available today. It has a half-life in the body of 15 to 16 days and is found as injectable oil. Because it reacts in the body for so long, it can cause more water retention than other steroids and is best used as bulking compound in a stack. Endogenous androgens are responsible for normal growth and development of the male sex organs and for maintenance of secondary sex characteristics. These effects include growth and maturation of the prostate, seminal vesicles, penis, and scrotum; development of male hair distribution, such as beard, pubic, chest, and axillary hair; laryngeal enlargement, vocal cord thickening, and alterations in body musculature and fat distribution. Drugs in this class also cause retention of nitrogen, sodium, potassium, and phosphorous, and decreased urinary excretion of calcium. Androgens have been reported to increase protein anabolism and decrease protein catabolism. Nitrogen balance is improved only when there is sufficient intake of calories and protein.

Why it's used

Testosterone cypionate is used to treat symptoms of [hypogonadism](#) in males. In this condition, males don't produce enough of the sex hormone testosterone.

Low testosterone levels in males can lead to mood changes, poor concentration, erectile dysfunction (trouble getting or keeping an erection), and low sex drive. It can also cause reduced growth of penis and testicles, gynecomastia (breast growth), loss of body hair and muscle mass, anemia, and osteoporosis.

There are two types of hypogonadism: primary and hypogonadotropic. This drug may be used to treat both.

Primary hypogonadism occurs when the testicles can't produce enough testosterone.

Hypogonadotropic hypogonadism occurs when there is damage to parts of the brain (hypothalamus or pituitary gland) that tell the testicles to produce testosterone.

How it works

Testosterone cypionate belongs to a class of drugs called androgens. A class of drugs is a group of medications that work in a similar way. These drugs are often used to treat similar conditions.

Testosterone cypionate works to treat hypogonadism in males by replacing the testosterone your body is unable to make.

Package and Shipping Of Testosterone Cypionate:

Under 25kg: inner: A PE bag in aluminum foil bag; Outside: carton

Over 25kg: inner: Double PE bags; Outside: 25kg/ fibre drum

Shipping:

With 3-5 days after your payment

FAQ Of Testosterone Cypionate :

Q1: Do you Accept Sample Order?

A: Yes. The smallest order we accept is 1kg.

Q2: Do you accept VISA business credit card?

A: Yes. VISA business credit card is in our payment.

Q3: Is there any discount?

A: Yes, if you want to purchase larger quantity, we can offer a better price for you.

Q4: How long does it take to me if I order?

A: About 3-5 days upon receipt of payment.

Q5: What kind of transportation do you have?

A: We have many ways of transportations, eg: Air, Sea, Special Lines, TNT, FEDEX, EMS, ect.
