

CAS 58-20-8 Testosterone Cypionate / Test Cypionate With High Purity

Our Product Introduction

Basic Information

- Place of Origin: China
- Brand Name: Hongbaiyi
- Certification: COA, HPLC MR
- Model Number: HBY-Testosterone
- Minimum Order Quantity: 1KG
- Price: Negotiable
- Packaging Details: Aluminum Bag or 25KG/Febr Drum
- Delivery Time: 3-5 work days after your payment
- Payment Terms: , Western Union, T/T
- Supply Ability: 4000kg/Month

Product Specification

- Product: Test Cypionate
- Molecular Formula: C₂₇H₄₀O₃
- Molecular Weight: 412.60
- Cas No.: 58-20-8
- Fineness: 99%
- Apperance: White Powder
- Shelf Life: 2 Years
- Highlight: **CAS 58-20-8 Testosterone Cypionate, High Purity Testosterone Cypionate, CAS 58-20-8 Test Cypionate**

Product Description

CAS 58-20-8 Testosterone cypionate / Test Cypionate with High Purity

Basic Information form Of Test Cypionate:

Product Name	Test Cypionate
Cas No.	58-20-8
Purity	>99%
Appearance	white powder
MF	C ₂₇ H ₄₀ O ₃
MW	412.60
Shelf life	2 years

What Is Test Cypionate:

Testosterone Cypionate, like enanthate, is an oil-dissolved injectable form of testosterone with strong androgenic and anabolic effects. Testosterone cypionate is very similar to that of the testosterone enanthate apart from the enanthate being one carbon atom lighter, which will bring about unnoticeable differences to the end user. The enanthate may contain slightly more testosterone due to the ester being included in the total milligram weight, but this amount will be minimal and not worth being concerned about. Testosterone cypionate is an oil based testosterone product which will result in a rise of testosterone concentrations for several days after administration, followed by elevated levels for approximately two weeks.

Water retention often becomes pronounced when using testosterone. This can bring about a softer less defined look to the user as subcutaneous fluids increase. Beware of possible rise in blood pressure when taking this product. Investing in a blood pressure monitor may prove a wise investment.

Gynecomastia can also be a side effect from excess oestrogen levels during or after a cycle. Puffy and/or sore nipples is a common early sign of gynecomastia formation. Gynecomastia is the formation of breast tissue, and if left untreated can result in a situation which requires surgery to correct.

Nolvadex can be taken upon the awareness of unwanted oestrogen related side effects. A better choice however would be to choose a powerful anti-aromatases such as arimidex, femara, or aromasin.

Like the enanthate ester, cypionate is usually injected weekly or biweekly in order to keep concentrations as stable as possible. Similar doses to that of enanthate should also bring about decent gains.

Product Image Of Test Cypionate:

Testosterone Cypionate Administration (Men):

To treat low testosterone levels, the prescribing guidelines for testosterone cypionate call for a dosage of 50-400 mg every two to four weeks. Although active in the body for a longer time, testosterone cypionate is usually injected on a weekly basis for physique- or performance-enhancing purposes. The usual dosage is in the range of 200-600 mg per week, taken in cycles 6 to 12 weeks in length. This level is sufficient for most users to notice exceptional gains in muscle size and strength.

Testosterone cypionate is a very effective anabolic drug, and is often used alone with great benefit. Some, however, find a need to stack it with other anabolic/androgenic steroids for a stronger effect, in which case an additional 200-400 mg per week of boldenone undecylenate, methenolone enanthate, or nandrolone decanoate should provide substantial results with no significant hepatotoxicity.

While large doses are generally not advised.

The recipe of Testosterone Cypionate 200mg/ml, Testosterone Cypionate 250mg/ml, Testosterone Cypionate 300mg/ml

1:Testosterone Cypionate 50ml @ 200mg/ml
10g Testosterone Cypionate powder
17.5ml Ethyl Oleate (EO)
16ml Grapeseed Oil (GSO)
1.5ml BA (3%)
7.5ml BB (15%)

2:Testosterone Cypionate 40ml @ 250mg/ml
10g Testosterone Cypionate powder
13.3ml EO
12 ml GSO
1.2ml BA (3%)
6ml BB (15%)

3:Testosterone Cypionate 40ml @ 300mg/ml
12g Testosterone Cypionate powder
11.8ml EO
10ml GSO
1.2ml BA (3%)
8ml BB (20%)

Package and Shipping Of Test Cypionate:

Under 25kg: inner: A PE bag in aluminum foil bag; Outside: carton

Over 25kg: inner: Double PE bags; Outside: 25kg/ fibre drum

Shipping:

With 3-5 days after your payment

FAQ Of Test Cypionate:

Q1: Do you Accept Sample Order?

A: Yes. The smallest order we accept is 1kg.

Q2: Do you accept VISA business credit card?

A: Yes. VISA business credit card is in our payment.

Q3: Is there any discount?

A: Yes, if you want to purchase larger quantity, we can offer a better price for you.

Q4: How long does it take to me if I order?

A: About 3-5 days upon receipt of payment.

Q5: What kind of transportation do you have?

A: We have many ways of transportations, eg: Air, Sea, Special Lines, TNT, FEDEX, EMS, ect.
