

High Purity Testosterone Powder 100mg/MI For Muscle Growth

Our Product Introduction

for more products please visit us on peptide-powder.com

Basic Information

- Place of Origin: China
- Brand Name: Hongbaiyi
- Certification: COA, HPLC MR
- Model Number: HBY-Testosterone
- Minimum Order Quantity: 1KG
- Price: Negotiable
- Packaging Details: Aluminum Bag or 25KG/Febr Drum
- Delivery Time: 3-5 work days after your payment
- Payment Terms: , Western Union, T/T
- Supply Ability: 4000kg/Month

Product Specification

- Product: Testosterone Propionate
- Cas No.: 57-85-2
- Aspect: White Powder
- Fineness: >99%
- Molecular Formula: C₂₂H₃₂O₃
- Molecular Weight: 344.49
- Shelf Life: 2 Years
- Highlight: **High Purity Testosterone Powder 100mg/MI, Muscle Growth Testosterone Powder 100mg/MI, Muscle Growth test prop 100**

Product Description

High Purity Testosterone Propionate 100mg/MI For Muscle Growth

Basic Information form Of Testosterone Propionate:

Product Name	Testosterone Propionate
Synonyms	Testosterone-17beta-propionate; Testosteroni propionas; Testoxyl; Testrex; Tostrin; Uniteston; Vulvan
Cas No.	57-85-2
MF	C ₂₂ H ₃₂ O ₃
MW	344.49
Fineness	99%
Aspect	white powder
Shelf life	2 years

What Is Testosterone Propionate:

100 USP injection provides testosterone propionate, a derivative of the principal endogenous androgen testosterone, for intramuscular administration. The esterification of the 17-beta-hydroxyl group increases the duration of the action of testosterone. The testosterone propionate has been prepared in an oily solution and as it is absorbed slowly from the liquid phase when injected intramuscularly. This allows Testosterone 100 to be administered at intervals of 3-4 days. 100 contains testosterone propionate in a 10ml solution for injection only (100mg testosterone propionate/ml).

100 is a clear, yellowish oily solution for intramuscular injection.

Propionate is a testosterone ester used for the treatment of primary hypogonadism (congenital or acquired), testicular failure due to cryptorchidism, bilateral torsion, orchitis, vanishing testis syndrome, or orchidectomy in males.

Application Of Testosterone Propionate:

Testosterone propionate has been used for studying its effects on pregnant ewes.

Testosterone Propionate is the shortest commonly ester attached to the Testosterone hormone. This means it takes your body the least amount of time to rid itself of the ester and release the parent hormone into the body. Due to its short active life, testosterone propionate typically needs to be injected every other day at a minimum. Anecdotally, testosterone propionate causes the least side effects and the least bloating; these side effects usually subside very quickly when use is ceased.

Usage:

Testosterone propionate is therefore much faster acting than other testosterone esters such as cypionate or enanthate, and requires a much more frequent dosing schedule, in order to maintain stable blood levels. Can be used as pharmaceutical material. Its main function is to Promote metabolism. Anabolic effects include growth of muscle mass and strength, increased bone density and strength, and stimulation of linear growth and bone maturation.

The Propionate ester is much faster acting (2-3 days) than Enanthate or Cypionate, and thus requires a more frequent injection schedule such as every day or every other day in order to keep blood levels as stable as possible. The benefit to this however, is that the steroid can be cleared from the body much more quickly after use is discontinued, thus making it a more preferable choice for tested athletes. Some bodybuilders also claim that Propionate tends to induce far fewer estrogen related side effects such as bloat than do the other esters of this powerful steroid.

Package and Shipping Of Testosterone Propionate:

Under 25kg: inner: A PE bag in aluminum foil bag; Outside: carton

Over 25kg: inner: Double PE bags; Outside: 25kg/ fibre drum

Shipping:

With 3-5 days after your payment

FAQ Of Testosterone Propionate:

Q1: Do you Accept Sample Order?

A: Yes. The smallest order we accept is 1kg.

Q2: Do you accept VISA business credit card?

A: Yes. VISA business credit card is in our payment.

Q3: Is there any discount?

A: Yes, if you want to purchase larger quantity, we can offer a better price for you.

Q4: How long does it take to me if I order?

A: About 3-5 days upon receipt of payment.

Q5: What kind of transportation do you have?

A: We have many ways of transportations, eg: Air, Sea, Special Lines, TNT, FEDEX, EMS, ect.
