

Bodybuilding Test Steroids Testosterone Isocaproate For Men Muscle Lean Bulking Cycles

Our Product Introduction

for more products please visit us on peptide-powder.com

Basic Information

- Place of Origin: China
- Brand Name: Hongbaiyi
- Certification: COA, HPLC MR
- Model Number: HBY-Testosterone
- Minimum Order Quantity: 1KG
- Price: Negotiable
- Packaging Details: Aluminum Bag or 25KG/Febr Drum
- Delivery Time: 3-5 work days after your payment
- Payment Terms: , Western Union, T/T
- Supply Ability: 4000kg/Month

Product Specification

- Product: Testosterone Isocaproate
- Cas No.: 15262-86-9
- Molecular Formula: C₂₅H₃₈O₃
- Molecular Weight: 386.57
- Fineness: 99.0%
- Appearance: White Powder
- Shelf Life: 2 Years
- Highlight: **Bodybuilding Test Testosterone Isocaproate, Muscle Lean Testosterone Isocaproate, Bulking Cycles Testosterone Isocaproate**

Product Description

Bodybuilding Test Steroids Testosterone Isocaproate for Men Muscle Lean Bulking Cycles

Basic Information form Of Testosterone Isocaproate :

Product Name	Testosterone Isocaproate
Cas No.	15262-86-9
MF	C25H38O3
Aspect	white powder
MW	386.57
Purity	99.0%
Shelf life	2 years

Description Of Testosterone Isocaproate:

Testosterone Isocaproate is very rarely found as a single ester based testosterone compound and in most all cases part of testosterone mixtures. Regardless of the attached ester, all testosterone will produce similar effects. Testosterone Isocaproate will increase protein synthesis, reduce cortisol, increase recovery abilities, aid in increasing strength and mass & also for Hormone replacement therapy

Testosterone is both a highly anabolic and androgenic hormone. Mode of action of Testosterone is same regardless ester attached to it. (Refer testosterone mechanism of action for details).

Testosterone Isocaproate is the hormone responsible in giving males their specific sexual traits. Testosterone Isocaproate will help in increasing the body weight and will also help in gaining the strength.

Application Of Testosterone Isocaproate:

1. Testosterone Isocaproate is very rarely found as a single ester based testosterone compound and in most all cases part of testosterone mixtures. Regardless of the attached ester, all testosterone will produce similar effects. Testosterone Isocaproate will increase protein synthesis, reduce cortisol, increase recovery abilities, aid in increasing strength and mass & also for Hormone replacement therapy. Testosterone is both a highly anabolic and androgenic hormone. Mode of action of Testosterone is same regardless ester attached to it. (Refer testosterone mechanism of action for details).

2. Testosterone Isocaproate is a hormone produced predominantly in the testes of males. It is the hormone responsible in giving males their

specific sexual traits. Transdermal testosterone mimics the body's natural rhythmic release of testosterone through a time-release patch. Testosterone Isocaproate is used to improve testosterone deficiencies such as hypogonadism and sexual dysfunction with limited side effects.

3. Testosterone Isocaproate is a piece of Adrenal cortical hormone drugs, anti-inflammatory, applies to anti-virus, anti-allergy. Compared with other similar drugs, it has no side effects, you can rest assured that use Testosterone Isocaproate got its introduction to the steroid world by appearing in both Omnadren as well as Sustanon 250, the two most popular testosterone blends currently on the market.

Function Of Testosterone Isocaproate:

Testosterone Isocaproate is useful for male body such as: increasing the synthesis of protein in the body, reduction of the cortisol, increasing the ability to recover after heavy trainings, increasing strength and helps the person gaining more mass. It is also very efficient in both cutting and the bulking cycles. But as it is related with the family of androgen it will have aromatizing properties as well.

Testosterone Isocaproate can be taken in the form of injection. Inject once or at max twice a week is enough due to its long active life (9 days) which means it will stay in the body for a longer period of time.

Testosterone Isocaproate is a hormone produced predominantly in the testes of males. It is the hormone responsible in giving males their specific sexual traits. Transdermal testosterone mimics the body's natural rhythmic release of testosterone through a time-release patch. Testosterone Isocaproate is used to improve testosterone deficiencies such as hypogonadism and sexual dysfunction with limited side effects.

Package and Shipping Of Testosterone Isocaproate

Under 25kg: inner: A PE bag in aluminum foil bag; Outside: carton

Over 25kg: inner: Double PE bags; Outside: 25kg/ fibre drum

Shipping:

With 3-5 days after your payment

FAQ Of Testosterone Isocaproate:

Q1: Do you Accept Sample Order?

A: Yes. The smallest order we accept is 1kg.

Q2: Do you accept VISA business credit card?

A: Yes. VISA business credit card is in our payment.

Q3: Is there any discount?

A: Yes, if you want to purchase larger quantity, we can offer a better price for you.
