

CAS No 5721-91-5 Testosterone Powder Muscle Gain Steroid Test Deca

Our Product Introduction

for more products please visit us on peptide-powder.com

Basic Information

- Place of Origin: China
- Brand Name: Hongbaiyi
- Certification: COA, HPLC MR
- Model Number: HBY-Testosterone
- Minimum Order Quantity: 1KG
- Price: Negotiable
- Packaging Details: Aluminum Bag or 25KG/Febr Drum
- Delivery Time: 3-5 work days after your payment
- Payment Terms: , Western Union, T/T
- Supply Ability: 4000kg/Month

Product Specification

- Product Name: Testosterone Decanoate
- Cas No: 5721-91-5
- Synonyms: Testosterone Decanoate;4-Androsten-17beta-ol-3-one Decanoate
- Purity: 99%Min
- Appearance: White Crystalline Powder
- Molecular Formula: C₂₉H₄₆O₃
- Molecular Weight: 442.68
- Shelf Life: 2 Years
- Highlight: **Muscle Gain Testosterone Powder, 5721-91-5 Steroid Test Deca, Muscle Gain Steroid Test Deca**

Product Description

Testosterone Decanoate Muscle Gain Steroid Test Deca CAS 5721-91-5

Basic Information form Of Testosterone Decanoate:

Product Name	Testosterone Decanoate
Synonyms	testosterone decanoate;4-Androsten-17beta-ol-3-one Decanoate
Cas No.	5721-91-5
Molecular Formula	C ₂₉ H ₄₆ O ₃
Appearance	white Crystalline powder
Purity	99.0%MIN
Molecular Weight	442.68
Shelf life	2 years

Description Of Testosterone Decanoate

Testosterone decanoate is a steroid hormone derived from androgen, found in mammals and other vertebrates, testosterone decanoate is mainly secreted in test mail and female ovaries, although a small amount is also secreted by the adrenal gland, but testosterone decanoate is the principle of male sex hormones and Anabolic steroids.

Testosterone decanoate plays a key role in the development of male reproductive tissues such as testes and prostate glands. In addition, testosterone decanoate is a necessary condition for the health and well-being and prevention of osteoporosis, and testosterone decanoate is retained through most vertebrates, although the fish makes a little difference.

Product Image Of Testosterone Decanoate:

Applications Of Testosterone Decanoate:

Testosterone decanoate is usually used for intramuscular injection, oil absorption is slow, functional and durable, can be maintained only a few days. Testosterone propionate can promote male organ development and secondary characteristics, promote protein synthesis and bone formation, estrogen, inhibit endometrial growth and ovarian and pituitary function. For testosterone, cryptorchidism, male gonadal dysfunction, gynecological diseases such as menorrhagia, uterine fibroids, senile osteoporosis and aplastic anemia.

Usage Of Testosterone Decanoate:

Testosterone decanoate is a steroid hormone derived from androgen, found in mammals and other vertebrates, testosterone decanoate is mainly secreted in test mail and female ovaries, although a small amount is also secreted by the adrenal gland, but testosterone decanoate is the principle of male sex hormones and Anabolic steroids.

Testosterone decanoate plays a key role in the development of male reproductive tissues such as testes and prostate glands. In addition, testosterone decanoate is a necessary condition for the health and well-being and prevention of osteoporosis, and testosterone decanoate is retained through most vertebrates, although the fish makes a little difference.

Testosterone Decanoate usage and dosage

Because decanoate is so long lasting, the user only needs to inject the drug once a week. The drug itself does not leave the body for 15 days. The user sometimes stacks Neotest 250 with Deca-Durabolin and injects at the same time as they will remain in the body for the same amount of time. The dose was as low as 250 mg / week and the results were seen and an extreme dose of 1000 mg / week had been recorded with little side effects, although the use of an aromatic sugar inhibitor at extreme doses was necessary.

Testosterone Decanoate Adverse Drug Effects

Liver toxicity, which produces pressure on the liver
Male breast development
headache

Gastrointestinal pain

hypertension

Testosterone Decanoate Formulations

As a Single entity:

TestosteroneDecanoate 250mg/ml

In combination with esters:

Testosterone Decanoate 100mg + Testosterone Propionate 30mg + Testosterone Phenylpropionate 60mg + Testosterone Isocaproate 60mg

Testosterone-Decanoate is one of the most popular testosterone on the market due to it being an imperative part of the Sustanon-250 mixture. However, pure Testosterone-Decanoate is rarely found alone as a single ester based testosterone except under the Neotest 250 name. Until Neotest 250 hit the market, unless you bought your own Decanoate powder and made your own Testosterone-Decanoate you wouldn't be able to find any.

Package and Shipping Of Testosterone Decanoate

Under 25kg: inner: A PE bag in aluminum foil bag; Outside: carton

Over 25kg: inner: Double PE bags; Outside: 25kg/ fibre drum

Shipping:

With 3-5 days after your payment

FAQ Of Testosterone Decanoate:

Q1: Do you Accept Sample Order?

A: Yes. The smallest order we accept is 1kg.

Q2: Do you accept VISA business credit card?

A: Yes. VISA business credit card is in our payment.

Q3: Is there any discount?

A: Yes, if you want to purchase larger quantity, we can offer a better price for you.
