

Muscle Protein Testosterone Powder Raw Materials For Pharmaceutical Industry

Our Product Introduction

for more products please visit us on peptide-powder.com

Basic Information

- Place of Origin: China
- Brand Name: Hongbaiyi
- Certification: COA, HPLC MR
- Model Number: HBY-Testosterone
- Minimum Order Quantity: 1KG
- Price: Negotiable
- Packaging Details: Aluminum Bag or 25KG/Febr Drum
- Delivery Time: 3-5 work days after your payment
- Payment Terms: , Western Union, T/T
- Supply Ability: 4000kg/Month

Product Specification

- Product Name: Testosterone Decanoate
- Synonyms: Testosterone Decanoate;4-Androsten-17beta-ol-3-one Decanoate
- Cas No: 5721-91-5
- Appearance: White Crystalline Powder
- Molecular Formula: C₂₉H₄₆O₃
- Molecular Weight: 442.68
- Purity: 99.2%
- Shelf Life: 2 Years
- Highlight: **Muscle Protein Testosterone Powder, Pharmaceutical Industry Testosterone Powder, Pharmaceutical Industry sustanon steroid**

Product Description

Testosterone Decanoate Muscle Protein Powder Raw Materials For Pharmaceutical Industry

Basic Information form Of Testosterone Decanoate:

Product Name	Testosterone Decanoate
Synonyms	testosterone decanoate;4-Androsten-17beta-ol-3-one Decanoate
Cas No.	5721-91-5
MF	C29H46O3
Molecular Weight	442.68
Appearance	white Crystalline powder
Purity	99.2%
Shelf life	2 years

Description Of Testosterone Decanoate

Testosterone decanoate is a steroid hormone from the androgen and is found in mammals and other vertebrates, testosterone decanoate is primarily secreted in the tests of males and the ovaries of female, although small amounts are also secreted by the adrenal glands, testosterone decanoate is the principle male sex hormone and an anabolic steroid.

Testosterone decanoate plays a key role in the development of male reproductive tissue such as the testis and prostate. In addition, testosterone decanoate is essential for health and well-being as well as the prevention of osteoporosis, testosterone decanoate is conserved through most vertebrates, although fish make a slight difference.

Testosterone Decanoate is one of the most popular testosterone on the market due to it being an imperative part of the Sustanon-250 mixture. While it has not been available as a single ester testosterone for very long, Neotest 250 has gained some popularity among many performance enhancers in recent years largely due to the long half-life it carries, thereby requiring injections to be somewhat infrequent.

Product Image Of Testosterone Decanoate:

Applications Of Testosterone Decanoate:

Testosterone decanoate is commonly used in intramuscular injection solution, the oil absorption is slow, function is strong and durable, can maintain time for just a few days.

Testosterone Decanoate is a male hormone and anabolic hormones. Testosterone Decanoate use for bodybuilding muscle supplements. Testosterone Decanoate combination and ester Decanoate is androgenic steroid with a pronounced anabolic effect.

Because the decanoate ester is so long lasting, users will only need to inject the drug once a week. The drug itself doesn't fully leave the body for 15 days. Users sometimes stack Neotest 250 with Deca-Durabolin and inject them at the same time, as they will last in the body the same

amount of time. Doses as little as 250 mgs/week will see results and extreme doses of 1000 mgs/week have been recorded with little side effects, although use of an aromatase inhibitor is a must at extreme doses.

Cook Recipes :

This is a short acting ester bro, most commonly used in a cocktail with other forms of test most commonly mixed and called sust. or blend.

30mg Test P

60mg Test Phenylpropionate

60mg test Isocaproate

100mg Test Decanoate

I recipe for this would look like this: Sustanon 250

900mgs Test Propionate (could do just 1 gram)

1.8 Test Phenylpropionate

1.8 Test Isocaproate

3grams Test Decanoate

1.5mls BA

4.8 MLS BB

16.80 MLS Oil-This is your choice. I personally would use sesame with this mix.

IF you prefer EO, cut it in half with a normal oil carrier. This will allow it to pass through a finer gauge needle.

EO-most have a PIP and a reaction to this substance use at your discretion.

Package and Shipping Of Testosterone Decanoate

Under 25kg: inner: A PE bag in aluminum foil bag; Outside: carton

Over 25kg: inner: Double PE bags; Outside: 25kg/ fibre drum

Shipping:

With 3-5 days after your payment

FAQ Of Testosterone Decanoate:

Q1: Do you Accept Sample Order?

A: Yes. The smallest order we accept is 1kg.

Q2: Do you accept VISA business credit card?

A: Yes. VISA business credit card is in our payment.

Q3: Is there any discount?

A: Yes, if you want to purchase larger quantity, we can offer a better price for you.

Q4: How long does it take to me if I order?

A: About 3-5 days upon receipt of payment.

Q5: What kind of transportation do you have?

A: We have many ways of transportations, eg: Air, Sea, Special Lines, TNT, FEDEX, EMS, ect.
