

Natural Raw Steroid Hormone Powder Testosterone Acetate For Bodybuilding 1045-69-8

Our Product Introduction

for more products please visit us on peptide-powder.com

Basic Information

- Place of Origin: China
- Brand Name: Hongbaiyi
- Certification: COA, HPLC MR
- Model Number: HBY-Testosterone
- Minimum Order Quantity: 1KG
- Price: Negotiable
- Packaging Details: Aluminum Bag or 25KG/Febr Drum
- Delivery Time: 3-5 work days after your payment
- Payment Terms: , Western Union, T/T
- Supply Ability: 4000kg/Month

Product Specification

- Name: Testosterone Acetate
- Purity: 99.55%
- Cas No: 1045-69-8
- MF: C₂₁H₃₀O₃
- MW: 330.47
- Appearance: White Crystalline Powder
- Shelf Life: 2 Years
- Highlight: **Natural Raw Steroid Hormone Powder, Testosterone Acetate Steroid Hormone, 1045-69-8 Bodybuilding Testosterone Powder**

Product Description

Natural Raw Steroid Hormone Powder Testosterone Acetate For Bodybuilding 1045-69-8

Basic Information form Of Testosterone Acetate:

Product Name	Testosterone Acetate
Cas No.	1045-69-8
MF	C ₂₁ H ₃₀ O ₃
MW	330.47
Appearance	white powder
Fineness	99.55%
Shelf life	2 years

What Is Testosterone Acetate?

Testosterone and its esters are widely used for androgen replacement therapy. Testosterone undergoes 5 alpha-reduction to dihydrotestosterone (DHT) in the prostate and other tissues leading to potentially undesirable consequences in adult males. Testosterone is the most common anabolic hormone and it is also regarded as the most fundamental hormone. Due to this, athletes often consider it as the base steroid to most all cycles. Testosterone is both anabolic and androgenic hormone in nature. Many People usually use testosterone acetate to see the speed of muscle gain in size and strength, increases libido and sex drive and an overall sense of well being.

Testosterone acetate acts much faster than Enanthate or Cypionate, so it requires a more frequent injection such as every day or every other day to keep blood level stable as much as possible. Compare to other products, testosterone acetate take an obvious advantage of being cleared quickly from body after you stop using, thus it becomes a more preferable choice to test athletes.

Product Image Of Testosterone Acetate:

Application Of Testosterone acetate

Responsible for promoting health and well-being through enhanced libido, energy, immunity, increased fat loss, gaining and maintaining lean muscle mass, preventing Osteoporosis (loss of bone density) and possible protection against heart disease.

User Notes:

Testosterone acetate is a combination of testosterone and ester acetate, and it is an androgenic steroid with a pronounced anabolic effect. Most acetate treatments deliver medication to the body relatively quick. So testosterone acetate reduces the risk of water retention. The people who have used the form of testosterone claim that it is arguably the most painless testosterone.

Usage:

It belongs to the male hormone, testosterone physically maintaining and promoting the development of masculinity and sexual organs. It is also used to treat women with breast cancer, ovarian cancer, uterine fibroids, such as multiple myeloma and renal cell carcinoma.
