

Anabolic Steroid Hormone Powder Testosterone Base CAS 58-22-0

Our Product Introduction

for more products please visit us on peptide-powder.com

Basic Information

- Place of Origin: China
- Brand Name: Hongbaiyi
- Certification: COA, HPLC MR
- Model Number: HBY-Testosterone
- Minimum Order Quantity: 1KG
- Price: Negotiable
- Packaging Details: Aluminum Bag or 25KG/Febr Drum
- Delivery Time: 3-5 work days after your payment
- Payment Terms: , Western Union, T/T
- Supply Ability: 4000kg/Month

Product Specification

- Name: Testosterone Base
- Cas No: 58-22-0
- MF: C₁₉H₂₈O₂
- MW: 288.42
- EINECS: 200-370-5
- Assay: 99%
- Appearance: White Crystalline Powder
- Shelf Life: 2 Years
- Highlight: **Testosterone Anabolic Steroid Hormone, Testosterone Base CAS 58-22-0**

WHY CHOOSE US

- 1 Own Factory**
Hongbaiyi has its own factory, which covers 18,000 square meters and is equipped with 4 standardized production workshops.
- 2 Professional Supplier**
Hongbaiyi is a professional supplier of APIs, pharmaceutical intermediates, veterinary medicine, cosmetic raw, nutritional supplements and other natural active ingredients.
- 3 Quality Assurance**
With strict QC system, our product quality is very reliable and stable. Besides, we have strong technical research and development strength.
- 4 Sales Team**
The experienced sales team of Hongbaiyi offers 24*365 quality service and the products were exported to over 40 countries around the globe.

Product Description

Testosterone Anabolic Steroid Hormone Powder Testosterone Base CAS 58-22-0

Basic Information form Of Testosterone Base:

Product Name	Testosterone Base
Cas No.	58-22-0
Chemical formula	C ₁₉ H ₂₈ O ₂
Molecular weight	288.42
Appearance	white powder
Purity	98%
Shelf life	2 years

Description Of Testosterone Base?

Testosterones Base belongs to the class of androgens. In fact, this is the main androgenic hormone in the body.

It is a very powerful hormone and Testosterones Base is largely responsible for the development of the testicles and prostate, as well as development of muscle tissue, bone density and strength.

Beyond these basic functions, Testosterones Base is essential to our health and general well-being.

Low levels of Testosterones Base can not only negatively affect muscle strength and bone density, but can also affect our mood. Although part of the androgen class of steroidal hormones, Testosterones Base is also strongly anabolic.

As you can see, important though the testes in the production of Testosterones Base, the pituitary gland is also a key. Without normal functioning of the pituitary gland (in the brain), the natural production of Testosterones Base can not do.

Application Of Testosterone Base:

Testosterone Base is the most common anabolic hormone that there is and is also considered the most basic. Due to this, bodybuilders often consider it the base steroid to most all cycles.

Testosterone Base is both anabolic and androgenic in nature. Users of this steroid will notice a dramatic gain in muscle size and strength, as well as an overall sense of well being and increases libido and sex drive.

1. Medical uses: for none of testosterone replacement therapy, treatment of male climacteric syndrome, impotence.
2. Sports use: to increase the amount of muscle. Some people use it to increase the number of muscles
3. Other uses: biochemical studies about natural male hormone, control male sex organs and development of male secondary sexual character and growth.
