

Male Sex Hormone 100mg Sildenafil Citrate Powder For Sexual Enhancement

Our Product Introduction

for more products please visit us on peptide-powder.com

Basic Information

- Place of Origin: China
- Brand Name: Hongbaiyi
- Certification: COA, HPLC MR
- Model Number: HBY-Sildenafil
- Minimum Order Quantity: 1KG
- Price: Negotiable
- Packaging Details: Aluminum Bag or 25KG/Febr Drum
- Delivery Time: 3-5 work days after your payment
- Payment Terms: , Western Union, T/T
- Supply Ability: 4000kg/Month

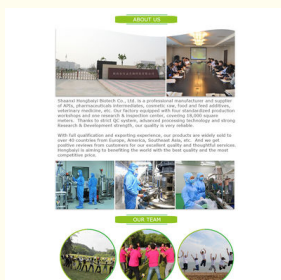

Product Specification

- Product Name: Sildenafil Citrate
- Cas No: 171599-83-0
- Synonyms: Sildenafil
- Molecular Formula: C₂₈H₃₈N₆O₁₁S
- Molecular Weight: 666.7
- Purity: 99%
- Melting Point: 187-189°C
- Appearance: White Powder
- Shelf Life: 2 Years
- Highlight: **100mg Sildenafil Citrate Powder, Sexual Enhancement Sildenafil Citrate Powder, Male Sex Hormone Powder**

Product Description

Male Sex Hormone 100mg Sildenafil Citrate Powder For Sexual Enhancement

Basic Information form Of Sildenafil Citrate:

Name	Sildenafil Citrate
Cas No.	171599-83-0
Molecular formula	C ₂₈ H ₃₈ N ₆ O ₁₁ S
Molecular weight	666.7
Appearance	white powder
Purity	99%
Shelf life	2 years

What Is Sildenafil Citrate?

Sildenafil citrate is the raw material of , treats erectile dys function and works by relaxing muscles and increases blood flow to particular areas of the body (in this case, the penis, specifically). Its effects last up to four hours. The most common side effects of are headache, facial flushing, and upset stomach. Rarely, blurred vision, or sensitivity to light may briefly occur.

As well as treating impotence, Sildenafil Citrate can also be effective in treating Pulmonary Arterial Hypertension (PAH). Similarly to how it acts to relax muscles of the penis, it relaxes arterial walls; therefore, reducing resistance and pressure in the arteries. Sildenafil Citrate is solely active in relaxing muscles and increasing blood flow to the heart, lungs and penis due to PDE-5, yet vasodilation is not increased in other parts of the body.

Application Of sildenafil Citrate:

In 16 separate 4-24 week trials of men (over 18 years old) who suffered from impotence for longer than 6 months, dosages between 10-200 mgs were administered. Significant improvements in erectile function, including frequency of penetration as well as erection duration post penetration, were reported with Sildenafil treatment compared to the placebo group.

Erections were improved in 72% of the group versus 18% of the placebo group. In all cases effects were dependant upon dosage and improvement was the greatest when dosage exceeded 100 mgs. Responses were decreased by 40-60% in patients suffering from diabetes and prostatectomy, respectively. Withdrawal rates were less than 5% related to negative side effects and limited response rates .

Cialis Vs. Levitra Vs.

Cialis, Levitra, and are oral medications used to treat erectile dysfunction (ED). You may also know them by their generic names, tadalafil (Cialis), vardenafil (Levitra), and sildenafil ().

About 30 million men occasionally have a problem 8with getting or keeping an erection, according to the Urology Care Foundation. When ED becomes a problem, many men turn to oral ED medications. These drugs often help. Cialis, Levitra, and each work in similar ways. But there are also some differences, such as when you take them, how long they work, and what their side effects are.

Cialis, Levitra, and are all in a class of drugs called PDE-5 inhibitors. These drugs work by blocking an enzyme called phosphodiesterase type 5. They also boost a chemical in your body called nitric oxide. This action encourages the muscles in your penis to relax. Relaxed muscles allow blood to flow freely so that when you're aroused, you can get an erection. It also helps you maintain the erection long enough to have sex.

Levitra and stay in your bloodstream for about four to six hours. Cialis remains in your bloodstream for 17 to 18 hours or longer. The length of time a drug stays in your system may be important if you're taking other medications.

Package and Shipping Of Sildenafil Citrate:

Under 25kg: inner: A PE bag in aluminum foil bag; Outside: carton

Over 25kg: inner: Double PE bags; Outside: 25kg/ fibre drum

Shipping:

With 3-5 days after your payment

FAQ Of Sildenafil Citrate:

Q1: Do you Accept Sample Order?

A: Yes. The smallest order we accept is 1kg.

Q2: Do you accept VISA business credit card?

A: Yes. VISA business credit card is in our payment.

Q3: Is there any discount?

A: Yes, if you want to purchase larger quantity, we can offer a better price for you.

Q4: How long does it take to me if I order?

A: About 3-5 days upon receipt of payment.

Q5: What kind of transportation do you have?

A: We have many ways of transportations, eg: Air, Sea, Special Lines, TNT, FEDEX, EMS, ect.
