

BodyBuilding Human Growth Hormone Peptide Thymosin Beta-4 TB500 2mg CAS 77591-33-4

Our Product Introduction

for more products please visit us on peptide-powder.com

Basic Information

- Place of Origin: China
- Brand Name: Hongbaiyi
- Certification: COA, HPLC MR
- Model Number: HBY-TB 500 Peptide
- Minimum Order Quantity: 5 box
- Price: US \$ 38-45 / Box
- Packaging Details: 2mg/vial, 10vials/Box
- Delivery Time: 3~5 days, upon receipt of payment
- Payment Terms: T/T, Western Union,
- Supply Ability: 5000 boxes per month

Product Specification

- Product Name: TB 500 2mg
- CAS No: 77591-33-4
- Molecular Formula: C₂₁₂H₃₅₀N₅₆O₇₈S
- Molecular Weight: 4963.44
- Storage: Keep In Dark Place, Inert Atmosphere, Store In Freez
- Appearance: White Lyophilized Powder

Product Description

Hormone Peptide TB-500 2mg/vial TB 500 Treatment For Tendinitis And Acute Injury

Product Details of Tb500 :

Product Name	TB 500
Appearance	White powder
Specification	2mg/vial, 10vials/Box
Purity	>99%
CAS	77591-33-4
MF	C212H350N56O78S
Storage	Keep in Dark Place, Inert Atmosphere, Store in Freez

Description Of Tb500

TB-500 is a synthetic part of protein thymosin beta-4, which is present in almost all human and animal cells. The main purpose of this peptide is to promote healing. It also promotes the creation of new blood and muscle cells. The healing of TB-500 was observed in the tendons, ligaments, muscles, skin, heart and eyes. Thymosin beta-4 naturally produces a higher concentration of damaged tissue. The peptide is also a very effective antiinflammatory agent.

TB-500 is an injectable peptide drug that can be used to promote healing, increase the range of motion during injury, or reduce pain by reducing inflammation. Because the use of human beings has been relatively uncommon, limited to people who like to test. The use of horse racing is more common, although it is not a prescription veterinary drug.

TB-500 is known to at least partially stimulate the growth of hair loss due to androgen-induced hair loss, and to be able to give a darker colour to at least the part of the hair that has greyed out. In addition, it is reported to promote muscle growth in horses. The latter could be based on the promotion of stem cell production. Bodybuilders who have used TB-500 for the purpose of promoting healing generally do not report such an effect. However, it is possible that this effect has occurred but has been attributed to other causes, or that this effect has not occurred, since TB-500 is generally used only during periods of injury which do not tend to be a time during which one best gains trained.

The types of injuries that are aided to heal include tendosynovitis, torn muscle fibers and strains, but could include many other types of muscle and connective tissue injuries as well as skin injuries. If muscle injury results in impaired flexibility, TB-500 can provide significant improvement.

Product Photos Of TB 500

When to use TB-500

I recommend TB-500 in the case of acute injury, judging by rule of thumb, healing may be slow, or in the case of chronic injury, otherwise it will not heal.

Associated injury types include tendonitis and muscle tear or strain, but may include many types of muscle and connective tissue injury as well as skin damage. TB-500 can provide a significant improvement if muscle damage leads to impaired flexibility. About horse racing, allegedly

prevents the formation of adhesions. No matter what the situation is even in humans even so, I can not say, but there are real signs that it helps to treat the existing adhesions.

Combining TB-500 with GH or GHRP may increase the effect

Although TB-500 can be administered alone, at least some people can achieve better results with TB-500 alone with TB.

Alternatively, the healing effect can be improved by combining TB-500 with GHRP (such as GHRP-2, GHRP-6, imarrine or hexarelin) or GHRP / Mod GRF stacks compared to TB-500 alone.

In both of these ways, from the results I now think the TB-500 / GH stack is more efficient.

FAQ Of TB 500

Q1: Do you Accept Sample Order?

A: Yes. The smallest order we accept is one box.

Q2: Do you accept VISA business credit card?

A: Yes. VISA business credit card is in our payment.

Q3: Is there any discount?

A: Yes, if you want to purchase larger quantity, we can offer a better price for you.

Q4: How long does it take to me if I order?

A: About 3-5 days upon receipt of payment.

Q5: What kind of transportation do you have?

A: We have many ways of transportations, eg: Air, Sea, Special Lines, TNT, FEDEX, EMS, ect.
