

Fragment 176-191 Human Growth Peptides Powder 2mg/Vial CAS 221231-10-3

Our Product Introduction

for more products please visit us on peptide-powder.com

Basic Information

- Place of Origin: China
- Brand Name: Hongbaiyi
- Certification: COA, HPLC MR
- Model Number: HBY-GH Frag176-191
- Minimum Order Quantity: 5box
- Price: US\$ 38-45/ box
- Packaging Details: 2mg/vial, 10vials/box
- Delivery Time: 3-5 work days after your payment
- Payment Terms: , Western Union, T/T
- Supply Ability: 4000kg/Month

Product Specification

- Name: Gh Frag 176-191
- CAS: 863288-34
- MW: 1817.1
- MF: C78H123N23O23S2
- Appearance: White Powder
- Purity: 99.5%
- Storage: 2-8
- Highlight: Human Growth Peptides Powder 2mg/Vial, Fragment 176-191 Human Growth Peptides

Product Description

Human Growth Peptides GH Fragment 176-191 Powder 2mg/Vial CAS 221231-10-3

Basic Information Form Of gh Frag 176-191

Product Name	gh frag 176-191
Cas No.	863288-34
Purity	99.5%
Appearance	White powder
MF	C78H123N23O23S2
MW	1817.1
Shelf Life	2 years
Storage	2-8

Brief Introduction of gh Frag 176-191

The GH Fragment is a modified form of amino acids 176-191 at the C-terminal region of the GH. Studies have shown that it works by mimicking the way natural GH regulates fat metabolism but without the adverse effects on insulin sensitivity (blood sugar) or cell proliferation (muscle growth) that is seen with unmodified GH. Like unmodified GH, the GH fragment 176-191 stimulates lipolysis (breaking down of fat) and inhibits lipogenesis (the formation of fatty acids and other lipids in the body).

GH fragment 176-191 is meant to be 12.5 times stronger than GH for weight loss than standard GH.

Of particular note is that in studies GH fragment 176-191 had the ability to increase IGF-1 levels which translates into the fragments ability to give anti-aging effects.

Benefits Of gh Frag 176-191

In trials, GH fragment 176-191 users have been found to lose fat, whereas lean mass is preserved. This means that unwanted fat is burned off, whereas desirable muscle mass is preserved and even enhanced. This effect is seen in both people with a normal Body Mass Index, and those who are overweight and obese. It also does not appear to have any harmful effects on blood glucose levels.

The dosage of GH fragment 176-191 is from 400 mcg to 2000 mcg per day, by subcutaneous injection. As the injectable amount is relatively small, it can be combined with sterile water to make measuring easier. The dose can be divided into three, and taken at intervals during the day. It is recommended to start at the smaller dosage level and maintain this level for three months, after which the level can be increased. It's suggested that injections are given each day a couple of hours before you undertake cardio exercise, or a few hours before you go to bed. Avoid eating for a couple of hours before and after receiving the injection, this gives you the optimum conditions for the burning of stored fat. As with all supplements, it is not a good idea to take more than the suggested dose – it will not improve your results and could be harmful.

How much GH Fragment 176-191 should be used?

In most studies favorable results have been shown with dosages between 400-600mcg or 4-6mcg/kg split into multiple dosages per day.

It has been shown that the fat-reducing effects of GH appear to be controlled by a small analog region of the C-terminus end of the GH molecule. This region consists of amino acids 176-191, thus the name. This peptide fragment works by mimicking the way natural GH regulates fat metabolism but without the adverse effects on blood sugar or growth that is seen with unmodified GH.

Like unmodified GH, the GH fragment 176-191 stimulates lipolysis and inhibits lipogenesis both en vivo/en vitro. Fragment 176-191 has shown no effect on growth or insulin resistance, unlike the full GH molecule. This is the newest, most powerful GH fragment on the market. Studies have shown sustained fatloss, aimed directly at adipose tissue.

Package and Shipping of gh Frag 176-191

Package: 2mg/vial, 10vials/box

Shipping: With 3-5 days after your payment

FAQ of gh frag 176-191

Q1: Do you Accept Sample Order?

A: Yes. The smallest order we accept is one box.

Q2: Do you accept VISA business credit card?

A: Yes. VISA business credit card is in our payment .

Q3: Is there any discount?

A: Yes, if you want to purchase larger quantity, we can offer better price for you.

Q4: How long does it take to me if I order?

A: About 3-5 days upon receipt of payment.

Q5: What kind of transportation do you have?

A: We have many ways of transportations, eg: Air, Sea, Special Lines, TNT, FEDEX, EMS, ect.
