

GH Fragment 176 - 191 Fat Loss GH For Men Bodybuilding

Our Product Introduction

for more products please visit us on peptide-powder.com

Basic Information

- Place of Origin: China
- Brand Name: Hongbaiyi
- Certification: COA, HPLC MR
- Model Number: HBY-GH Frag176-191
- Minimum Order Quantity: 5box
- Price: US\$ 65-70/ box
- Packaging Details: 5mg/vial, 10vials/box
- Delivery Time: 3-5 work days after your payment
- Payment Terms: , Western Union, T/T
- Supply Ability: 4000kg/Month

Product Specification

- Name: Gh Frag 176-191
- CAS: 863288-34
- MW: 1817.1
- MF: C78H123N23O23S2
- Assay: 99%
- Appearance: White Powder
- Storage: 2-8
- Highlight: **Fat Loss HGH Fragment 176-191 , 863288-34 Human Growth Hormone Peptides**

Product Description

GH Fragment 176 - 191 Fat Loss GH For Men Bodybuilding

Basic Information Form Of gh Frag 176-191

Product Name	gh frag 176-191
Cas No.	863288-34
Assay	99%
Appearance	White powder
MF	C78H123N23O23S2
MW	1817.1
Shelf Life	2 years
Storage	2-8

What Is gh Frag 176-191

H-Gh Fragment 176 -191 is a fatloss peptide derived from the GH molecule, which directly initiates lipolysis and inhibits lipogenesis, but in order to better understand this peptide, it is imperative to have at least a rudimentary understanding of its parent hormone .

GH is a polypeptide which contains an amino acid sequence that is 191 amino acids in length. Frag (176-191) was developed by isolating and modifying the specific portion of the GH molecule responsible for the hormone's lipolytic and anti-lipogenic effects.

The portion of the molecule responsible for these effects is amino acids 176-191. In every sense, Frag should primarily be considered a fat loss peptide which performs these functions through the same pathways as traditional GH, but without exposing the user to the potentially undesirable side effects which may present themselves during GH administration.

Application Of gh Frag 176-191

The GH fragment 176-191 stimulates lipolysis and inhibits lipogenesis both en vivo/en vitro.

Fragment 176191 has shown no effect on growth or insulin resistance, unlike the full GH molecule. This is the newest, most powerful GH fragment on the market. Studies have shown sustained fatloss, aimed directly at adipose tissue.

It has been shown that the fat-reducing effects of GH appear to be controlled by a small analog region of the C-terminus end of the GH molecule. This region consists of amino acids 176-191, thus the name. This peptide fragment works by mimicking the way natural GH regulates fat metabolism but without the adverse effects on blood sugar that is seen with unmodified GH.

Administration Of gh Frag 176-191

GH Frag 176-191 is provided in lyophilized form (dry powder) and is reconstituted by the user with bacteriostatic water. The fragment is typically injected subcutaneously but can also be administered intramuscularly. Regardless of injection preference, all injections should occur on an empty stomach. Injecting with food in the stomach will weaken the effectiveness of the compound.

GH Frag 176-191 can be administered 1-2 times per day with twice daily producing optimal results. If once per day, it should be taken 30-60min before breakfast. If twice per day, the second dose should be taken before bed and a few hours after the day's last meal. 250-500mcg per day is the most common dosing range with 500mcg being the most common. 500mcg per day should produce significant fat loss in most any individual.

Package and Shipping of gh Frag 176-191

Package: 2mg/vial, 10vials/box

Shipping: With 3-5 days after your payment

FAQ of gh frag 176-191

Q1: Do you Accept Sample Order?

A: Yes. The smallest order we accept is one box.

Q2: Do you accept VISA business credit card?

A: Yes. VISA business credit card is in our payment .

Q3: Is there any discount?

A: Yes, if you want to purchase larger quantity, we can offer better price for you.

Q4: How long does it take to me if I order?

A: About 3-5 days upon receipt of payment.

Q5: What kind of transportation do you have?

A: We have many ways of transportations, eg: Air, Sea, Special Lines,TNT, FEDEX, EMS, ect.
