

Raw Human Growth Hormone Peptides Ghrp-2 CAS 158861-67-

7

Our Product Introduction

for more products please visit us on peptide-powder.com

Basic Information

- Place of Origin: China
- Brand Name: Hongbaiyi
- Certification: COA, HPLC MR
- Model Number: HBYP-GHRP2
- Minimum Order Quantity: 5 box
- Packaging Details: 10mg/vial, 10vials/Box
- Delivery Time: 3~5 days, upon receipt of payment
- Payment Terms: T/T, Western Union,
- Supply Ability: 5000 boxes per month

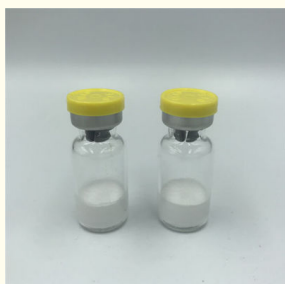

Product Specification

- Product Name: Ghrp 2
- Specification: 10mg/vial, 10vials/box
- CAS No: 87616-84-0
- Appearance: White Lyophilized Powder
- Molecular Formula: C46H56N12O6
- Shelf Life: 2 Years
- Storage: 2~8 Centigrade
- Molecular Weight: 817.9

Product Description

Raw Human Growth Hormone Peptides Ghrp-2 CAS 158861-67-7

Product Details Of ghrp 2 :

Product Name	ghrp 2
Appearance	White powder
Specification	10mg/vial, 10vials/Box
Assay	99%
CAS	87616-84-0
MF	C46H56N12O6
MW	746.91
Storage	2~8 centigrade

Description Of Ghrp 2

GHRP-2 (Hormone Releasing Peptide 2) is a hormone secretagogue of the hexapeptide class. Sharing many similarities with GHRP-6, GHRP-2 is the first in this class of hormones, and in many circles, is considered the better choice between it and GHRP-6. It is not a hormone that is often used alone but is almost always used with a Hormone Releasing Hormone (GHRH) such as PEG-MGF.

The compound may also be commonly found under the names Pralmorelin or GHRP Kaken 100. However, in most pharmaceutical and performance based circles, it has in recent years been most commonly referred to as GHRP-2.

Growth hormone releasing peptide-2 (GHRP-2) is in the category of drugs known as GH secretagogues. This category of drugs includes GHRP-2, GHRP-6, Ipamorelin, and Hexarelin. Their primary function is to stimulate the pituitary gland to produce more growth hormone. GHRPs have a 2-fold mechanism of action, in that they cause an increase in GH through amplifying the natural growth hormone releasing hormone (GHRH) signal transduction pathway, as well as by suppressing the actions of somatostatin.

GHRP-2 is a 2nd generation GHRP and finds its primary use in the area of GH release. It is superior to GHRP-6 in this regard and is currently the preferred peptide for attaining maximum elevations in GH over the long-term. Recent research also reveals that GHRP-2 can be dosed much higher than initially thought, while avoiding the desensitization that is inherent in some of our other GHRP's. This provides the user with the opportunity to experience greater elevations in total GH, depending on the dosage administered. Lastly, while GHRP-2 can potentially lead to some degree appetite stimulation, not all users experience this effect and when they do, it is typically much less profound in comparison to GHRP-6.

GHRP-2 vs GHRP-6

Compared with GHRP 6, GHRP 2 without side effects. GHRP 2 is a 2nd generation GHRP and finds its primary use in the area of GH release.

It is superior to GHRP 6 in this regard and is currently the preferred peptide for attaining maximum elevations in GH over the long-term.

Common benefits of GH (GHRP-2) include:

- * Decreases in body fat
- * An increase in lean mass
- * Increased collagen production
- * Improved sleep
- * Increased cellular repair
- * An increase in IGF-1
- * Increases in bone density

Recommendations for GHRP2 use:

* GHRP-2 should be administered on an empty stomach. No food should be consumed for 15-20 minutes post-inject, if maximum GH release is desired.

* The average dosing range is between 100-2,000 mcg per inject. Dosing frequency is as little as 3X per week when mega-dosing...and up to 6X per day when using lower dosages. Multiple daily doses will yield the best results.

FAQ of ghrp 2 :

Q1: Do you Accept Sample Order?

A: Yes. The smallest order we accept is one box.

Q2: How long does it take to me if I order?

A: About 3-5 days upon receipt of payment.

Q3: Do you accept VISA business credit card?

A: Yes. VISA business credit card is in our payment.

Q4: Is there any discount?

A: Yes, if you want to purchase larger quantity, we can offer a better price for you.

Q5: What kind of transportation do you have?

A: We have many ways of transportations, eg: Air, Sea, Special Lines, TNT, FEDEX, EMS, ect.
