

High Pure Pharmaceutical Raw Materials Ipamorelin Peptide 2mg/Vial For Bodybuilding

Our Product Introduction

for more products please visit us on peptide-powder.com

Basic Information

- Place of Origin: China
- Brand Name: Hongbaiyi
- Certification: COA, HPLC MR
- Model Number: HBY-Ipamorelin
- Minimum Order Quantity: 5box
- Price: US\$ 35-44 / box
- Packaging Details: 2mg/vial, 10vials/box
- Delivery Time: 3-5 work days after your payment
- Payment Terms: , Western Union, T/T
- Supply Ability: 4000kg/Month

Product Specification

- Peptide Name: Ipamorelin
- Chemical Formula: C38H49N9O5
- Molecular Weight: 711.86
- CAS: 170851-70-4
- Peptide Purity: 99.2%
- Appearance: White Lyophilized Powder
- Shelf Life: 2 Years
- Highlight: **2mg/Vial Ipamorelin Peptide, Pharmaceutical Ipamorelin Peptide, HGH Fragment Peptide Bodybuilding**

Product Description

High Pure Pharmaceutical Raw Materials Ipamorelin 2mg/Vial For Bodybuilding

Brief Introduction of Ipamorelin

Ipamorelin is a penta-peptide And the strength it displays may very well make regular old GH obsolete. But what athletes and bodybuilders really want to know is what is this wonder peptide capable of doing, how is it used, and how does it compare to the other GHRP peptides.

Ipamorelin is a fascinating new muscle building discovery that is getting a lot of attention in the bodybuilding world. It is a synthetic peptide that has powerful Growth Hormone releasing properties. And these GH releasing properties are what is of interest to athletes and bodybuilders since they can make a tremendous difference in the amount of muscle you can grow and how quickly you burn fat.

Purpose: Build tight lean muscle, reduce body fat and decrease water retention with Ipamorelin from Forever Young Medical Institute. This releasing peptide is designed to enhance the body's natural production and release of human . Ipamorelin is the only peptide of its kind to increase the number of somatotopes (cells that release) as well as the amount that each somatotrope releases. GHRP-2 and GHRP-6 only increase the number of somatotopes, but do not influence the amount they release

Basic Information Form of Ipamorelin

Product Name	Ipamorelin
Cas No.	170851-70-4
Chemical Formula	C38H49N9O5
Appearance	White powder
Purity	99.2%
Shelf Life	2 years
Molecular Weight	711.86

Application of Ipamorelin

Ipamorelin has been shown to be both highly potent and very selective in vivo and vitro situations, and has also demonstrated good safety and

tolerability in human clinical studies.

Research has shown that Ipamorelin is hormone specific which means that the pituitary hormones such as cortisol are unaffected. In one study, it was found that young female adult rats had increased bone mass due to 12 weeks of treatment with ipamorelin. This peptide compared to other Hormone Releasing Peptides ensures the benefits without having to deal with possible negative side effects.

Ipamorelin in theory may increase Acetylcholine or Cortisol when used in higher dosages. However, an increase in Acetylcholine or Cortisol is even more likely with GHRP-2 and GHRP-6. In fact, in the case of Ipamorelin, there was little to no rise in Acetylcholine and Cortisol blood plasma levels even at injections more than 200 times higher than the effective dosage for comparable GH release.

This clearly proves that Ipamorelin is the first successful GHRP receptor agonist or chemical that binds to a receptor of a cell and triggers a response by that cell with a specific selectivity for the promotion of GH release by itself.

Another advantage to Ipamorelin is that it doesn't cause sudden spikes in prolactin or cortisol as does GHRP-2 and GHRP-6. Ipamorelin is slower in its delivery unlike GHRP's which spike GH levels at a more rapid rate. The slower release is more natural and has a more sustained effect.

Package and Shipping of Ipamorelin

Package: 2mg/vial, 10vials/box

Shipping: With 3-5 days after your payment

FAQ of Ipamorelin

Q1: Do you Accept Sample Order?

A: Yes. The smallest order we accept is one box.

Q2: Do you accept VISA business credit card?

A: Yes. VISA business credit card is in our payment .

Q3: How long does it take to me if I order?

A: About 3-5 days upon receipt of payment.

Q4: Is there any discount?

A: Yes, if you want to purchase larger quantity, we can offer better price for you.

Q5: What kind of transportation do you have?

A: We have many ways of transportations, eg: Air, Sea, Special Lines, TNT, FEDEX, EMS, ect.
