

CAS 170851-70-4 Human Growth Peptides Muscle Gaining Ipamorelin 2 Mg/ Vial Ipamorelin Acetate

Our Product Introduction

for more products please visit us on peptide-powder.com

Basic Information

- Place of Origin: China
- Brand Name: Hongbaiyi
- Certification: COA, HPLC MR
- Model Number: HBY- Ipamorelin
- Minimum Order Quantity: 5box
- Price: US\$ 36-47/ box
- Packaging Details: 2mg/vial, 10vials/box
- Delivery Time: 3-5 work days after your payment
- Payment Terms: , Western Union, T/T
- Supply Ability: 4000kg/Month

Product Specification

- Product Name: Ipamorelin Acetate
- CAS: 170851-70-4
- Molecular Formula: C38H49N9O5
- Molecular Weight: 711.86
- Appearance: White Lyophilized Powder
- Peptide Purity: 99.5%
- Shelf Life: 2 Years

Product Description

CAS 170851-70-4 Human Growth Peptides Muscle Gaining Ipamorelin 2 Mg/ Vial Ipamorelin Acetate

Basic Information Form of Ipamorelin Acetate

Peptide Name	Ipamorelin Acetate
Cas No.	170851-70-4
Molecular Formula	C38H49N9O5
Appearance	White powder
Purity	99.1%
Shelf Life	2 years
Molecular Weight	711.86

Brief Introduction of Ipamorelin Acetate

Ipamorelin is a peptidic, selective agonist of the ghrelin/growth hormone secretagogue receptor (GHS) and a growth hormone secretagogue. It is a pentapeptide with the amino acid sequence Aib-His-D-2-Nal-D-Phe-Lys-NH₂ that was derived from GHRP-1.

Ipamorelin or NNC 26-0161, a polypeptide hormone, is a growth hormone secretagogue and ghrelin mimetic and analog. Ipamorelin belongs to the most recent generation of GHRPs and causes significant release of growth hormone by itself, due both to its suppression of somatostatin (an antagonist to GHRH) and stimulation of release of GH from the anterior pituitary, similar to GHRP-2 and GHRP-6 which are compounds from the same class (growth hormone releasing peptides). The cells that produce and release GH are known as somatotropes. Ipamorelin acts synergistically when applied during a native GHRH (growth-hormone releasing hormone) pulse or when co-administered with GHRH or a GHRH analog such as Sermorelin or GRF 1-29 (growth releasing factor, aminos 1-29).

The synergy comes both due to the suppression of somatostatin and the fact that ipamorelin increases GH release per-somatotrope, while GHRH increases the number of somatotropes releasing GH. There is also a secondary effect of neuronal excitation in the hypothalamus caused by ipamorelin, which lasts for approximately 3 hours after application, similar to GHRP-2 and GHRP-6.

Application of Ipamorelin

Ipamorelin, like other peptides, comes as a freeze dried powder that is very delicate. You can store it in the refrigerator or at room temperature before reconstituting. Once reconstituted with bacteriostatic water, the vials must be stored in a cool dry place like your refrigerator. Insulin syringes are the best way to administer it, usually via subcutaneous injection.

Of course, using iPamorelin with a GHRH like CJC w/out DAC will give the user the biggest increase in GH and IGF-1 as GHRP's and GHRH's work together synergetically.

The average dosing for Ipamorelin is 200-300mcg two to three times daily. Twelve week cycles are quite normal and PCT would be very minimal - mini-pct is fine. If prolactin issues ever arise, there are products that help reduce prolactin and estrogen-like symptoms. These include aromatase inhibitors (Aromasin, Arimidex), and anti-prolactin aids like Dostinex (Cabergoline)

Package and Shipping of Ipamorelin

Package: 2mg/vial, 10vials/box

Shipping: With 3-5 days after your payment

FAQ of Ipamorelin

Q1: Do you Accept Sample Order?

A: Yes. The smallest order we accept is one box.

Q2: Do you accept VISA business credit card?

A: Yes. VISA business credit card is in our payment .

Q3: How long does it take to me if I order?

A: About 3-5 days upon receipient of payment.

Q4: Is there any discount?

A: Yes, if you want to purchase larger quantity, we can offer better price for you.

Q5: What kind of transportation do you have?

A: We have many ways of transportations, eg: Air, Sea, Special Lines, TNT, FEDEX, EMS, ect.
