

Melanotan-1 HGH Peptide 99% Purity MT-1 for Muscle Gain CAS 121062-08-6

Our Product Introduction

for more products please visit us on peptide-powder.com

Basic Information

- Place of Origin: China
- Brand Name: Hongbaiyi
- Certification: COA, HPLC MR
- Model Number: HBY-Melanotan-1
- Minimum Order Quantity: 5 box
- Price: US\$ 52-58/box
- Packaging Details: 10mg/vial, 10vials/box
- Delivery Time: 3-5 work days after your payment
- Payment Terms: , Western Union, T/T
- Supply Ability: 3000kg/Month

Product Specification

- Name: Melanotan-1
- Molecular Formula: C78H111N21O19
- CAS No.: 75921-69-6
- Molecular Weight: 1646.35
- Purity: 99%
- Appearance: White Powder
- Shelf Life: 2 Years

Product Description

Melanotan-1 HGH Peptide 99% Purity MT-1 for Muscle Gain CAS 121062-08-6

Basic Information Form of Melanotan-1

Name	Melanotan-1
CAS NO.	75921-69-6
Molecular Formula	C78H111N21O19
Molecular Weight	1646.85
Purity	99%
Store	Cool Dry Place
Facade	White Powder

What Is Melanotan-1?

Melanotan 1 (also referred to as Afamelanotide) is a synthetic peptide variant of a peptide hormone, called alpha-Melanocyte stimulating hormone or MSH that is naturally produced in the body and is responsible for stimulating melanogenesis, a peptide process for pigmentation of the skin. Alpha-MSH activates certain melanocortin receptors in the process of exerting its effects. Indeed, MSH also exerts potent influence over lipid metabolism, appetite, and sexual libido via these melanocortin receptors.

As a result, Melanotan-1 sunless skin tanning effects. While Melanotan 2 and PT-141 have been studied at length as a potential remedies for the treatment of sexual dysfunction, Melanotan-1 has been researched extensively for use in protecting against the harmful effects of ultraviolet radiation from sunlight due to its melanogenesis-stimulating properties.

Usage of Melanotan-1

Melanotan 1 (also referred to as Afamelanotide) is a synthetic peptide variant of a peptide hormone, called alpha-Melanocyte stimulating hormone or MSH that is naturally produced in the body and is responsible for stimulating melanogenesis, a peptide process for pigmentation of the skin. Alpha-MSH activates certain melanocortin receptors in the process of exerting its effects.

Indeed, MSH also exerts potent influence over lipid metabolism, appetite, and sexual libido via these melanocortin receptors. As a result, Melanotan-1 sunless skin tanning effects. While Melanotan 2 and PT-141 have been studied at length as a potential remedies for the treatment of sexual dysfunction, Melanotan-1 has been researched extensively for use in protecting against the harmful effects of ultraviolet radiation from sunlight due to its melanogenesis-stimulating properties.

Start with a dose of 1mg daily for the first two or three days and, if level of side effects permit, look to increase dosage by 0.25mg every day over the next several days until you reach a daily dosage of 2-3mg. This level should be adequate for most users, though some may wish to increase yet further, perhaps as high as 5mg daily in order to achieve a very deep tan. A maintenance phase as described above is then used.

How Does MT-1(Melanotan I) Work?

Melanotan 1 is an analogue of MSH, which is manufactured within the pituitary gland. It is classified as a melanocortin, and, like all melanocortins, it acts on certain physical systems which influence hair color, skin pigment, sexual arousal, sexual desire and appetite.

The more melanin the body produces, the darker the skin gets. This peptide will allow for self-tanning without UV exposure. This means that the body will grow tanned all over, even in places which aren't exposed to sunlight. However, UV exposure will accelerate the tanning process in exposed areas. The role that UV exposure plays sometimes results in a tan which may not be perfectly even all over.

Most users find that they are most tanned on their faces, arms and stomachs. The genitals may also take on a tanned appearance during therapy with this peptide.

Package and Shipping of Melanotan-1

Package: 10mg/vial, 10vials/box

Shipping: With 3-5 days after your payment

FAQ of Melanotan-1

Q1: Do you Accept Sample Order?

A: Yes. The smallest order we accept is one box.

Q2: Do you accept VISA business credit card?

A: Yes. VISA business credit card is in our payment.

Q3: Is there any discount?

A: Yes, if you want to purchase larger quantity, we can offer a better price for you.

Q4: How long does it take to me if I order?

A: About 3-5 days upon receipt of payment.

Q5: What kind of transportation do you have?

A: We have many ways of transportations, eg: Air, Sea, Special Lines, TNT, FEDEX, EMS, ect.
