

CAS 307297-39-8 Anabolic Steroid Powder Epitalon for Older People Anti Aging Steroids

Our Product Introduction

for more products please visit us on peptide-powder.com

Basic Information

- Place of Origin: China
- Brand Name: Hongbaiyi
- Certification: COA, HPLC MR
- Model Number: HBY-Epitalon
- Minimum Order Quantity: 5box
- Price: US \$ 48-53/ box
- Packaging Details: 10mg/vial, 10vials/box
- Delivery Time: 3-5 work days after your payment
- Payment Terms: , Western Union, T/T
- Supply Ability: 3000kg/Month

Product Specification

- Peptide Name: Epithalon
- CAS No.: 307297-39-8
- MF: C₁₄H₂₂N₄O₉
- MW: 390.35
- Appearance: White Powder
- Purity: 99%
- Specifications: 10mg/vial, 10vials/box

Product Description

CAS 307297-39-8 Anabolic Steroid Powder Epitalon for Older People Anti Aging Steroids

Basic Information Form of Epitalon

Peptide Name	Epithalon
CAS NO.	307297-39-8
Appearance	White Powder
MW	390.35
MF	C ₁₄ H ₂₂ N ₄ O ₉
Purity	99%
Specifications	10mg/vial, 10vials/box
Stability	2 years

What Is Epitalon

Growth Hormone Releasing Peptide 2(GHRP2) substantially stimulates the pituitary gland's increased natural production of the body's own endogenous human growth hormone. This therapy consists of daily periodic sub-lingual dosing. Growth Hormone releasing peptide 2, GHRP2 has shown on it's own to robustly increase IGF-1 levels, and even greater results occurred when used with Growth Hormone Releasing Hormone (GHRH) to which also stimulates the pituitary gland to produce increased natural secretion of human growth hormone. This also boosts the hypothalamus function as well.

GHRP-2, like its brother GHRP-6, is a hexapeptide that is a pure growth hormone secretagogue. In addition, GHRP-2 is a synthetic agonist of ghrelin. Unlike GHRP-6, this peptide does not bring on the heavy hunger side effects associated with GHRP-6; however, some users will notice slight increases in hunger. Somewhere in between GHRP-6 and iPamorelin, this hexapeptide has the ability to be a serious contender when considering which GHRP to use with your GHRH.

Application Of Epitalon

If you are looking for anti-aging properties or for the ability to increase lean body mass gains on cycle/off cycle, or even as a bridge, GHRP-2 will help you on that path. It is a very potent growth hormone releasing peptide. As always, please be advised that while it does come with some side effects, GHRP-2 will not shut down your natural production of growth hormone like exogenous HGH will. With a proper diet and training, users can utilize GHRP-2 along with a GHRH as a tool that is safe and effective for athletes and bodybuilders alike.

Package and Shipping of Epitalon

Package: 10mg/vial, 10vials/box

Shipping: With 3-5 days after your payment

FAQ of Epitalon

Q1: Do you Accept Sample Order?
