

CAS 62568-57-4 Raw Steroid Powders Pharmaceutical Delta Sleep Inducing Peptide DSIP

Our Product Introduction

for more products please visit us on peptide-powder.com

Basic Information

- Place of Origin: China
- Brand Name: Hongbaiyi
- Certification: COA, HPLC MR
- Model Number: HBY-Dsip
- Minimum Order Quantity: 5box
- Price: US\$ 32-39/ box
- Packaging Details: 2mg/vial, 10vials/box
- Delivery Time: 3-5 work days after your payment
- Payment Terms: , Western Union, T/T
- Supply Ability: 4000kg/Month

Product Specification

- Name: Dsip
- CAS: 62568-57-4
- MF: C35H48N10O15
- MW: 848.81
- Peptide Purity: >99%
- Appearance: White Powder
- Shelf Life: 2 Years

Product Description

CAS 62568-57-4 Raw Steroid Powders Pharmaceutical Delta Sleep Inducing Peptide DSIP

Basic Information Form of Dsip

Peptide Name	Dsip
Cas No	62568-57-4
MF	C35H48N10O15
MW	848.81
Purity	99%
Appearance	White Freeze-Dried Powder
Storage	-18°C
Shelf Life	2 years

Brief Introduction of Dsip

Delta sleep-inducing peptide, abbreviated DSIP, is a neuropeptide that when infused into the mesodiencephalic ventricle of recipient rabbits induces spindle and delta EEG activity and reduced motor activities. Its aminoacid sequence is Trp-Ala-Gly-Gly-Asp-Ala-Ser-Gly-Glu. However, the gene is unknown[citation needed], raising serious questions regarding the actual existence of this peptide in nature.

However, it is the only neuropeptide in history whose gene is unknown, raising serious questions regarding the actual existence of this peptide in nature.

Application Of DSIP

DSIP is used to help people to fall asleep and keep sleeping. This peptide is welcomed by bodybuilders who understand the function and potential of peptides through training and supplemental programs. In order to help the user sleep better, or can be stacked with other peptides in order to create a comprehensive supplemental procedure, the peptide can be used alone.

DSIP reduces basal adrenocorticotrophic hormone levels and prevents their release. It also makes the body easier to release LH (luteinizing hormone). In addition, it makes the body easier to release growth hormone (and growth hormone secretion) and prevent the production of somatostatin.

This peptide can help people manage stress. In addition, it may have the ability to reduce the symptoms of body temperature. It is also known as an effective means of normal blood pressure and myocardial contraction. Likewise, it can provide the benefits of antioxidants (slowing cell damage).

Benefits Of DSIP

1. Decreases basal corticotropin level and blocks its release.
2. Stimulates release of luteinizing hormone (LH).
3. Stimulates release of somatoliberin and somatotrophin secretion and inhibits somatostatin secretion
4. Can normalize blood pressure and myocardial contraction.
5. It has been found to have anticarcinogenic properties

Package and Shipping of Dsip

Package: 2mg/vial, 10vials/box.5mg/vial, 10vials/box.

Shipping: With 3-5 days after your payment

FAQ Of Dsip

Q1: Do you Accept Sample Order?

A: Yes. The smallest order we accept is one box.

Q2: How long does it take to me if I order?

A: About 3-5 days upon receipt of payment.

Q3: Do you accept VISA business credit card?

A: Yes. VISA business credit card is in our payment .

Q4: Is there any discount?

A: Yes, if you want to purchase larger quantity, we can offer better price for you.

Q5: What kind of transportation do you have?

A: We have many ways of transportations, eg: Air, Sea, Special Lines, TNT, FEDEX, EMS, ect.
