

218949-48-5 Tesamorelin Human Growth Hormone HGH Peptides Powder For Bodybuilding

Our Product Introduction

for more products please visit us on peptide-powder.com

Basic Information

- Place of Origin: China
- Brand Name: Hongbaiyi
- Certification: COA, HPLC MR
- Model Number: HBY-Tesamorelin
- Minimum Order Quantity: 5box
- Price: US\$ 53-58 / box
- Packaging Details: 2mg/vial, 10vials/box
- Delivery Time: 3-5 work days after your payment
- Payment Terms: , Western Union, T/T
- Supply Ability: 4000kg/Month

Product Specification

- Peptide Name: Tesamorelin
- CAS No.: 218949-48-5
- MF: C221H366N72O67S
- MW: 5136
- Appearance: White Lyophilized Powder
- Peptide Purity: 99.2%
- Highlight: **Tesamorelin HGH Powder,
218949-48-5 Human Growth Hormone Peptides,
Tesamorelin Body Building Peptides**

Product Description

Tesamorelin 218949-48-5 Human Growth Hormone HGH powder 2 Mg/Vial for Bodybuilding

Basic Information Form of Tesamorelin

Product Name	Tesamorelin
Cas No.	218949-48-5
Appearance	White powder
Molecular Formula	C221H366N72O67S
Molecular Weight	5135.8
Fineness	99.2%
Shelf Life	2 years

What Is Tesamorelin

Tesamorelin has been shown to reduce lipodystrophy in HIV-infected individuals; Lipodystrophy is a condition that causes changes in placement of body fat; including wasting and fat accumulation; and changes in metabolism; Similar to Tesamorelin is Sermorelin; which may be taken with GHRP-6 in clinical trials; that also promotes production and possible fat loss. Individuals with lipodystrophy may develop excess fat most notably around the liver, stomach and other abdominal organs & visceral body fat.

Tesamorelin is a synthetic hormone-releasing factor that stimulates the pituitary gland in the brain to secrete hormone; this indirect approach appears to maintain more stable; natural levels; like CJC-1295 DAC. Clinical trials have shown that tesamorelin significantly reduces abdominal fat with fewer side effects than human hormone itself; although abdominal fat may return after the Tesamorelin is discontinued; depending upon the individual; Tesamorelin has been shown to reduce lipodystrophy in HIV-infected individuals as well as similarly reducing abdominal fat in NON-HIV-Infected individuals.

Product Image Of Tesamorelin

Application Of Tesamorelin

Triptorelin raises testosterone levels by causing constant stimulation of the pituitary, it decreases pituitary secretion of gonadotropins luteinizing hormone (LH) and follicle stimulating hormone (FSH). Like other GnRH agonists, triptorelin may be used in the treatment of hormone-responsive cancers such as prostate cancer or breast cancer, precocious puberty, estrogen-dependent conditions (such as endometriosis or uterine fibroids), and in assisted reproduction.

Fat Loss and the Tesamorelin Peptide

Tesamorelin has been shown to reduce lipodystrophy in HIV-infected individuals. Lipodystrophy is a condition that causes changes in placement of body fat, including wasting and fat accumulation, and changes in metabolism. Similar to Tesamorelin is Sermorelin, which may be taken with GHRP-6 in clinical trials, that also promotes production and possible fat loss. Individuals with lipodystrophy may develop excess fat most notably around the liver, stomach, and other abdominal organs (visceral body fat).

Package and Shipping Of Tesamorelin

Package: 2mg/vial, 10vials/box

Shipping: With 3-5 days after your payment

FAQ of Tesamorelin

Q1: Do you Accept Sample Order?

A: Yes. The smallest order we accept is one box.

Q2: Do you accept VISA business credit card?

A: Yes. VISA business credit card is in our payment .

Q3: Is there any discount?
