

Gonadotropin-Releasing Hormone Peptide Gonadorelin 5mg/Vial For Anti Cancer 33515-09-2

Our Product Introduction

for more products please visit us on peptide-powder.com

Basic Information

- Place of Origin: China
- Brand Name: Hongbaiyi
- Certification: COA, HPLC MR
- Model Number: HBY-Gonadorelin
- Minimum Order Quantity: 5 box
- Price: US \$ 49-58/ box
- Packaging Details: 5mg/vial, 10vials/box
- Delivery Time: 3-5 work days after your payment
- Payment Terms: MoneyGram, Western Union, T/T
- Supply Ability: 3000kg/Month

Product Specification

- Peptide Name: Gonadorelin
- CAS No: 33515-09-2
- Purity: 99%
- MF: C55H75N17O13
- MW: 1182.3
- Appearance: White Lyophilized Powder

Product Description

Gonadotropin-Releasing Hormone Peptide Gonadorelin 5mg/Vial For Anti Cancer 33515-09-2

Basic Information Form of Gonadorelin

Peptide Name	Gonadorelin
CAS NO.	33515-09-2
MF	C55H75N17O13
MW	1182.3
Appearance	White Lyophilized Powder
Product Purity	99%
Shelf life	2 years

Brief Introduction of Gonadorelin

1. Gonadorelin is a drug that is similar with gonadotropin-releasing hormone (GnRH) that is naturally released from the hypothalamus gland. Gonadorelin makes the pituitary gland to produce other hormones (luteinizing hormone [LH] and follicle-stimulating hormone [FSH]). LH and FSH modify development in children and fertility in adults.

2. Gonadorelin is applied to test how well the hypothalamus and the pituitary glands are working. Gonadorelin is also utilized to cause ovulation (release of an egg from the ovary) in women who do not have regular ovulation and menstrual periods because the hypothalamus gland does not release enough GnRH.

Applications of Gonadorelin

Gonadorelin is a medicine that is the same as gonadotropin-releasing hormone (GnRH) that is naturally released from the hypothalamus gland.

GnRH causes the pituitary gland to release other hormones (luteinizing hormone [LH] and follicle-stimulating hormone [FSH]). LH and FSH control development in children and fertility in adults.

Gonadorelin is used to test how well the hypothalamus and the pituitary glands are working. It is also used to cause ovulation (release of an egg from the ovary) in women who do not have regular ovulation and menstrual periods because the hypothalamus gland does not release enough GnRH.

Gonadorelin is used to test how well the hypothalamus and the pituitary glands are working. It is also used to cause ovulation (release of an egg from the ovary) in women who do not have regular ovulation and menstrual periods because the hypothalamus gland does not release enough GnRH.

Gonadorelin is responsible for the release of follicle stimulating hormone and luteinizing hormone from the anterior pituitary. In the pituitary GnRH stimulates synthesis and release of FSH and LH, a process that is controlled by the frequency and amplitude of GnRH pulses, as well as the feedback of androgens and estrogens.

The pulsatility of GnRH secretion has been seen in all vertebrates, and it is necessary to ensure a correct reproductive function. Thus a single hormone, GnRH, controls a complex process of follicular growth, ovulation, and corpus luteum maintenance in the female, and spermatogenesis in the male. Its short half life requires infusion pumps for its clinical use.

Effect of Gonadorelin

Evaluating how well the hypothalamus and pituitary glands are working. It may also be used for other conditions as determined by your doctor.

Gonadorelin is a gonadotropin-releasing hormone. It works by causing the pituitary gland to release other hormones (luteinizing hormone and follicle-stimulating hormone) that control development in children and fertility in adults.

Package and Shipping of Gonadorelin

Package: 5mg/vial, 10vials/box

Shipping: With 3-5 days after your payment

FAQ of Gonadorelin

Q1: Do you Accept Sample Order?

A: Yes. The smallest order we accept is one box.

Q2: Do you accept VISA business credit card?

A: Yes. VISA business credit card is in our payment.

Q3: How long does it take to me if I order?

A: About 3-5 days upon receipt of payment.

Q4: Is there any discount?

A: Yes, if you want to purchase larger quantity, we can offer a better price for you.

Q5: What kind of transportation do you have?

A: We have many ways of transportations, eg: Air, Sea, Special Lines, TNT, FEDEX, EMS, ect.
