

TB500 Thymosin Beta-4 Peptide Powder CAS 777591-33 For Muscle Mass

Our Product Introduction

Basic Information

- Place of Origin: China
- Brand Name: Hongbaiyi
- Certification: COA, HPLC MR
- Model Number: HBY-TB 500
- Minimum Order Quantity: 5 boxes
- Price: negotiable
- Packaging Details: 2mg/vial, 10vials/Box
- Delivery Time: 3~5 days, upon receipt of payment
- Payment Terms: T/T, Western Union, MoneyGram
- Supply Ability: 20000 boxes per month

Product Specification

- Product Name: TB500 Peptide Thymosin Beta - 4 Peptide Powder CAS 777591-33 For Muscle Mass
- Molecular Formula: C₂₁₂H₃₅₀N₅₆O₇₈S
- Molecular Weight: 4963.44
- CAS No: 77591-33-4
- Purity: 99%
- Synonyms: Thymosin Beta 4
- Storage: Keep In Dark Place, Inert Atmosphere, Store In Freez
- Shelf Life: 2 Years
- MOQ: 5 Boxes
- Whatsapp: +86 13108042961
- Highlight: **Thymosin Beta-4 Peptide Powder, Muscle Mass Tb500 Peptides, Body Building Thymosin Beta-4**

Product Description

TB500 Peptide Thymosin Beta-4 Peptide Powder CAS 777591-33 For Muscle Mass

What is TB-500?

TB-500 is a synthetic version of the region of thymosin Beta-4 that is active and occurs naturally in the body. It is often considered to be one of the top peptides capable of faster healing of tendons and various wounds. Thymosin Beta-4 is essentially the parent peptide of TB-500. Thymosin Beta-4 consists of 43 amino acids and has a molecular weight of 4,921 g/mol. As a therapeutic peptide, Thymosin Beta-4 and TB-500 have essentially the same effect. However, due to the size of Thymosin Beta-4, it is not commonly or easily produced. This makes it easier to manufacture and, therefore, easier to purchase TB-500.

How does TB-500 healing peptide work?

TB-500 works by building new blood vessels and muscle tissue fibres, as well as assisting in new cell migration and blood cell multiplication. Its action is based on its ability to upregulate cell building proteins such as actin. Actin is a protein that, together with myosin, forms the contractile filaments of muscle cells. It allows for faster healing times and cell growth, migration and proliferation. Once injected, it finds the injured area and goes to work, repairing the damaged tissue.

Benefits of TB-500

This synthetic peptide has a long list of benefits with no known side effects, making TB-500 ideal for those seeking muscle growth and rapid healing. TB-500 is considered one of the best peptides for treating tendons, ligaments, muscles and skin, and it can even help with eye injuries and heart conditions. Those who have used TB-500 after a heart attack have been shown to have faster recovery rates.

Not only does it help in these areas, but it also helps to increase strength through muscle growth. Faster healing times due to TB-500 have also been proven.

- Improves endurance
- Reduces acute and chronic pain, spasm and inflammation
- Protects and restores neurons after brain injury
- Aids hair re-growth
- Increases flexibility

Product Details of Tb500 Peptide :

Product Name	Tb500 2mg Peptide
CAS	77591-33-4
Molar Mass	4963.44
Molecular formula	C212H350N56O78S
Purity	99%
Appearance	White powder
Specification	2mg/vial, 10vials/Box
