

Bodybuilding Trenbolone Acetate Anabolic Steroids Powder 99% Purity

Our Product Introduction

for more products please visit us on peptide-powder.com

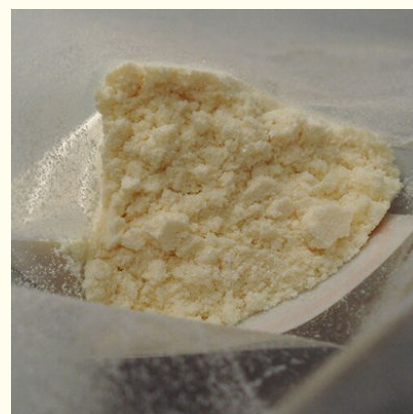

Basic Information

- Place of Origin: China
- Brand Name: Hongbaiyi
- Certification: COA, HPLC MR
- Model Number: HBY-Testosterone
- Minimum Order Quantity: 1KG
- Price: Negotiable
- Packaging Details: Aluminum Bag or 25KG/Febr Drum
- Delivery Time: 3-5 work days after your payment
- Payment Terms: , Western Union, T/T
- Supply Ability: 4000kg/Month

Product Specification

- Product: Trenbolone Acetate
- Molecular Formula: C₂₀H₂₄O₃
- Cas No.: 10161-34-9
- Molecular Weight: 312.41
- Purity: 99%
- Appearance: Yellow Or Light Yellow Crystal Powder
- Shelf Life: 2 Years
- Highlight: **99% Purity Anabolic Steroids Powder , Trenbolone Acetate Anabolic Steroids Powder , Bodybuilding Trenbolone Acetate**

Product Description

99% Purity Anabolic Steroid Trenbolone Acetate Powder For Bodybuilding

Basic Information form Of Trenbolone Acetate:

Product Name	Trenbolone Acetate
Synonyms	Finaplix, Tren A, Finajet, Revalor-H, Reva
Cas No.	10161-34-9
Molecular Formula	C ₂₀ H ₂₄ O ₃
Molecular Weight	312.41
Appearance	>99%
Aspect	Yellow or light yellow crystal powder
Shelf life	2 years

Functions Of Trenbolone Acetate:

Trenbolone acetate is usually used at doses of 35-150 mg/day, and more typically 50-100 mg/day. The 35 mg figure generally is appropriate only when having high personal sensitivity to trenbolone-specific side effects. When trenbolone usage is this low and an effective cycle is desired, another injectable anabolic steroid should be added. Masteron is a good choice for this purpose. Another, quite different choice is testosterone.

As for the higher 150 mg/figure, this generally is used for the purpose of increased nervous system stimulation compared to 100 mg/day rather than for further mass or strength improvements, which are already maximized or very nearly maximized at 100 mg/day.

Most users find 50-75 mg/day to be an ideal dosage range, giving excellent benefit as part of an anabolic steroid stack.

These milligram amounts are unusually low for an injectable anabolic steroid. Part of the reason is that trenbolone is remarkably potent (effective per milligram.) Another reason is that because the acetate ester is unusually light, a very high percentage of the weight of the trenbolone acetate molecule is the active steroid.

Benefits Of Trenbolone Acetate:

- 1.No estrogen conversion
- 2.Perfect for hardening
- 3.Perfect levels of nutritional intake absorption
- 4.Massive strength gains
- 5.Incredible cell repair abilities
- 6.Aides in fat loss
7. Trenbolone destroys cortisol the evillest of hormones that destroys muscle tissue and can bring a world of havoc on the hard dieter.

Package and Shipping Of Trenbolone Acetate:

Under 25kg: inner: A PE bag in aluminum foil bag; Outside: carton

Over 25kg: inner: Double PE bags; Outside: 25kg/ fibre drum

With 3-5 days after your payment

FAQ Of Trenbolone Acetate:

Q1: Do you Accept Sample Order?

A: Yes. The smallest order we accept is 1kg.

Q2: Do you accept VISA business credit card?

A: Yes. VISA business credit card is in our payment.

Q3: Is there any discount?

A: Yes, if you want to purchase larger quantity, we can offer a better price for you.

Q4: How long does it take to me if I order?

A: About 3-5 days upon receipt of payment.

Q5: What kind of transportation do you have?

A: We have many ways of transportations, eg: Air, Sea, Special Lines, TNT, FEDEX, EMS, ect.
