

Steroid 17-Methyltestosterone Promote Male Sex Organs 99.6% Purity

Our Product Introduction

for more products please visit us on peptide-powder.com

Basic Information

- Place of Origin: China
- Brand Name: Hongbaiyi
- Certification: COA, HPLC MR
- Model Number: HBY-Testosterone
- Minimum Order Quantity: 1KG
- Price: Negotiable
- Packaging Details: Aluminum Bag or 25KG/Febr Drum
- Delivery Time: 3-5 work days after your payment
- Payment Terms: , Western Union, T/T
- Supply Ability: 4000kg/Month

Product Specification

- Product: 17-Methyltestosterone
- Cas No.: 58-18-4
- Molecular Formula: C₂₀H₃₀O₂
- Molecular Weight: 302.45
- Assay: 99.6%
- Appearance: White Powder
- Shelf Life: 2 Years
- Highlight: **99.6% Testosterone Powder, Male Sex Organs 17-Methyltestosterone**

Product Description

Popular Steroid 17-Methyltestosterone Help Promote Male Sex organs 99.6% Purity

Basic Information form Of 17 - Methyltestosterone:

Product Name	17 - Methyltestosterone
Other Name	17-Alpha-Methyl-Testosterone; Methyltestosteron
Cas No.	58-18-4
MF	C ₂₀ H ₃₀ O ₂
MW	302.45
Purity	99.6%
Appearance	white powder
Shelf life	2 years

Description Of 17 - Methyltestosterone:

Methyltestosterone tablets are sublingual (to be placed under the tongue) for faster absorption. A couple tabs placed under the tongue before a visit to the gym may make for an aggressive workout. Aside from this, methyltestosterone offers little except androgenic side effects. It is quite toxic, elevating liver enzymes and causing acne, gynecomastia, aggression and water retention quite easily. Were one to tolerate these side-effects, methyltestosterone will offer little more than some slight strength gains.

Applications Of 17 - Methyltestosterone:

The methyltestosterone steroid is an oral form of testosterone. The oral testosterone is inactive, because a good part of it is used in the liver metabolism and it is decomposed, so only 5-10% will be present in blood. If you will analyze carefully, you will observe that this steroid is a 17-alpha methyltestosterone, meaning that on the C-17 molecule's position is growing a methyl group, so the Methyltestosterone is decomposed and it is inactivated in the liver area .

Methyltestosterone is an oral form of testosterone. Testosterone itself is ineffective when taken orally since the greatest part of the compound is metabolized and destroyed by the liver during the "first pass" so that at most 5-10% of the compound enters the blood and becomes effective. Methyltestosterone is a 17-alpha steroid molecule. This means they add a methyl group to the C-17-alpha position of the molecule. Thus, the liver does not break it down and deactivates it as fast as oral testosterone is. Still, it quickly reaches the blood and has only a low half-life. The mucous membrane in the mouth reabsorbs a part of Methyltestosterone. Sublingual intake is possible. Methyltestosterone is a very potent steroid since it has a distinct androgenic effect. In particular, it's use it to increase aggressiveness. Powerlifters and weightlifters use it before a heavy workout or a competition since the increased androgenic effect can already be noted one hour after intake and the improved

aggressiveness, the increased self-esteem, and the thrust of motivation taking place allow the athlete to lift heavier weights. Most interestingly, Methyltestosterone(Ciba's Metandren) has had a fair amount of success in treating menopause by enhancing often lost libido and energy levels that often diminish during this stage of life for many women. While Methyltestosterone has enjoyed success in menopause treatment in the modern era, most women are now prescribed other testosterone forms.

Package and Shipping Of 17 - Methyltestosterone:

Under 25kg: inner: A PE bag in aluminum foil bag; Outside: carton

Over 25kg: inner: Double PE bags; Outside: 25kg/ fibre drum

With 3-5 days after your payment

FAQ Of 17 - Methyltestosterone:

Q1: Do you Accept Sample Order?

A: Yes. The smallest order we accept is 1kg.

Q2: Do you accept VISA business credit card?

A: Yes. VISA business credit card is in our payment.

Q3: Is there any discount?

A: Yes, if you want to purchase larger quantity, we can offer a better price for you.

Q4: How long does it take to me if I order?

A: About 3-5 days upon receipt of payment.

Q5: What kind of transportation do you have?

A: We have many ways of transportations, eg: Air, Sea, Special Lines, TNT, FEDEX, EMS, ect.
