

2mg/vial Human Growth Hormone Peptide CJC1295 With DAC CAS 863288-34-0

Our Product Introduction

for more products please visit us on peptide-powder.com

Basic Information

- Place of Origin: China
- Brand Name: Hongbaiyi
- Certification: COA, HPLC MR
- Model Number: HBY-CJC 1295 With DAC
- Minimum Order Quantity: 5 box
- Price: US\$ 72-78/ box
- Packaging Details: 2mg/vial, 10vials/box
- Delivery Time: 3-5 work days after your payment
- Payment Terms: , Western Union, T/T
- Supply Ability: 4000kg/Month

Product Specification

- Name: CJC 1295 With DAC
- CAS: 863288-34-0
- Molecular Formula: C165H271N47O46
- Molecular Weight: 3367.89
- Specification: 2mg/vial, 10vials/box
- Appearance: White powder
- Shelf Life: 2 Years
- Highlight: Human Growth Hormone CJC1295 Peptide, 2mg/Vial Human Growth Hormone Peptide

Product Description

CJC1295 Human Growth Hormone Peptide CJC1295 With DAC CAS 863288-34-0 Basic Information Form:

Product Name	CJC 1295 With DAC
Cas No.	863288-34-0
Assay	99%
Appearance	White powder
MF	C152h252n44o42
MW	3649.30
Shelf Life	2 years
Condition	Cool Dry Place

Brief Introduction Of CJC 1295 With DAC

CJC 1295 with dac (synonym CJC1295/DAC, changed kind (GRF 1-29) with drug affinity complex) belongs to category of tetrasubstituted amide endocrines and contains thirty amino acids; conjointly it is represented as analog of GH emotional hormone. Its formula is C165H269N47O46 and its molecular mass is 3647.28.

CJC-1295 is a tetrasubstituted 30-amino acid peptide hormone, primarily functioning as a releasing hormone (GHRH) analog. One of the advantages of CJC-1295 over traditional GHRH is its ability to bioconjugate with serum albumin, thus increasing its half-life and therapeutic window. It accomplishes this by using protecting groups around the amino acids of GHRH typically susceptible to enzymatic degradation. The clinical research was ultimately successful for most research subjects. Ghrelin, released from the gut, which circulates and acts as a hunger hormone, has synergistic activity in the body with GHRH and also suppresses somatostatin to make way for the GHRH pulse.

Applications CJC 1295 With Dac

CJC-1295 DAC and CJC-1295 (also known as Modified GRF 1-29) are both Releasing Hormones (GHRH). Their action in the human body is identical but the difference between the two peptides are the span of the half-life. Modified GRF 1-29 and Sermorelin have a very short acting half-life of about 30 minutes, while CJC-1295 DAC has a half-life that can last up to approximately 8 days. Many a scientist have reported that the short half-life of Sermorelin and Modified GRF 1-29 is considered to be much more natural as they produce a short pulse of Human.

Feedback Of CJC 1295 With DAC
