

99% Purity Cosmetic Palmitoyl Tripeptide-1 Peptide Anti Wrinkle

Our Product Introduction

Basic Information

- Place of Origin: China
- Brand Name: Hongbaiyi
- Certification: COA, HPLC MR
- Model Number: HBY-Palmitoyl Tripeptide-1
- Minimum Order Quantity: 1kg
- Price: Negotiable
- Packaging Details: 1KG/Aluminum foil bag, carton outside; 25KG/Fiber drum, double plastic-bag inside;
- Delivery Time: 3-5 work days after your payment
- Payment Terms: Western Union, T/T, MoneyGram
- Supply Ability: 5000kg/Month

Product Specification

- Product Name: 99% Purity Anti-Wrinkle Cosmetic Palmitoyl Tripeptide-1 Peptide
- CAS No.: 147732-56-7
- Physical Appearance: White Powder
- Specification: 99% Purity
- Shelf Life: 2 Years
- Storage Condition: Cool Dry Place
- Molecular Formula: C₃₀H₅₄N₆O₅
- MW: 578.787
- Synonymy: Matrixyl3000
- MOQ: 1kg
- Highlight: **Palmitoyl Tripeptide-1 Peptide,**
Palmitoyl Tripeptide-1 Cosmetic Peptide,
Anti Wrinkle Palmitoyl Tripeptide-1

Product Description

99% Purity Anti-Wrinkle Cosmetic Palmitoyl Tripeptide-1 Peptide

Peptides are two or more amino acids linked together and are the building blocks of proteins. Peptides can be divided into three main groups: signalling peptides, carrier peptides and peptides that inhibit nerve signals. Signal peptides, such as palmitoyl tripeptide-1, act as messengers to cells, triggering collagen synthesis, which then increases skin firmness.

Palmitoyl tripeptide-1 is a small, three amino acid signal peptide with the amino acid sequence glycine-histidine-lysine (GHK).GHK is linked to palmitic acid (a fatty acid) to increase its skin penetration and oil solubility.

Benefits of 99% Purity Anti-Wrinkle Cosmetic Palmitoyl Tripeptide-1 Peptide

- 1. Palmitoyl Tripeptide-1 Peptide tightens the skin and aids collagen production and anti-wrinkle.**
As we age, collagen in the skin breaks down into peptides, which send signals to skin cells informing them to make more collagen to replace the lost collagen. The topical application of peptides increases this signal, which in turn increases new collagen production.
- 2. Palmitoyl Tripeptide-1 Peptide reduces the appearance of fine lines**
By stimulating collagen production, peptides help to give the skin a plumper and more youthful appearance.
- 3. Palmitoyl Tripeptide-1 Peptide strengthens the skin barrier**
Peptides increase cellular activity and repair the skin's natural barrier, making it more effective at retaining moisture and protecting the body from foreign substances.
- 4. Palmitoyl Tripeptide-1 Peptide locks in hydration**
As we age, collagen production decreases and over time, collagen levels in the skin decline. Collagen helps the skin to retain moisture; therefore, loss of collagen can also lead to dehydration. Use a collagen-stimulating peptide such as palmitoyl tripeptide-1, thereby improving the skin's hydration by boosting collagen production.
- 5. Palmitoyl Tripeptide-1 Peptide reduces inflammation**
The antioxidants found in peptides help to calm and soothe the skin, leading to a reduction in inflammation.

Basic Information of Palmitoyl Tripeptide-1

Product Name	Palmitoyl Tripeptide-1
CAS	147732-56-7
Purity	99%
MF	C30H54N6O5
Storage	Cool Dry Place
Synonymy	Matrixyl 3000
MOQ	1 kg
