

Cosmetic Ahk-Cu Peptide Powder CAS 89030-95-5 For Anti Aging

Our Product Introduction

Basic Information

- Place of Origin: China
- Brand Name: Hongbaiyi
- Certification: COA, HPLC MR
- Model Number: HBY- AHK-CU
- Minimum Order Quantity: 1kg
- Price: Negotiable
- Packaging Details: Sealed Bag/Drum
- Delivery Time: 3-5 work days after your payment
- Payment Terms: Western Union, T/T, MoneyGram
- Supply Ability: 5000kg/Month

Product Specification

- Product Name: Cosmetic Ahk-Cu Peptides Powder CAS 89030-95-5 For Anti-Aging
- CAS No.: 89030-95-5
- Physical Appearance: Powder
- Specification: 99% Purity
- Shelf Life: 2 Years
- Storage Condition: Cool Dry Place
- Molecular Formula: $C_{14}H_{21}CuN_6O_4$
- Usage: Organic Chemical Material
- Highlight: **Cosmetic Ahk-Cu Peptide Powder, CAS 89030-95-5 Cosmetic Peptide, Anti Aging Ahk-Cu Peptide**

Product Description

What is Cosmetic Ahk-Cu Peptides Powder CAS 89030-95-5 For Anti-Aging?

AHK-Cu is a naturally occurring copper complex that was first identified in human plasma, but has recently been found in several other places including saliva and urine.

AHK-Cu has several roles in the human body, including promoting activation of wound healing, attracting immune cells, having antioxidant and anti-inflammatory effects, stimulating collagen and glycosaminoglycan synthesis in skin fibroblasts, and promoting blood vessel growth. The copper peptide AHK-Cu is widely used in anti-aging cosmetics (INCI name: copper tripeptide-1). Several controlled facial studies have confirmed the anti-aging, firming and anti-wrinkle activity of the copper peptide AHK-Cu.

Benefits of Cosmetic Ahk-Cu Peptides Powder CAS 89030-95-5 For Anti-Aging

- Tightens sagging skin and reverses thinning of aging skin
- Repairs protective skin barrier proteins
