

## GHRP 2 Growth Hormone Releasing Peptide 99% Purity 10Mg/Vial

### Our Product Introduction

#### Basic Information

- Place of Origin: China
- Brand Name: Hongbaiyi
- Certification: COA, HPLC MR
- Model Number: HBY-GHRP2
- Minimum Order Quantity: 5 boxes
- Price: US\$ 43-49 / box
- Packaging Details: 10mg/vial, 10vials/Box
- Delivery Time: 3~5 days, upon receipt of payment
- Payment Terms: T/T, Western Union,
- Supply Ability: 5000 boxes per month

#### Product Specification

- Product Name: GHRP 2
- CAS No: 158861-67-7
- Molecular Formula: C42H50N8O5
- Molecular Weight: 746.897
- Storage: 2~8 Centigrade
- Appearance: White Lyophilized Powder
- Shelf Life: 2 Years, When Proper Storage
- MOQ: 5 Box
- Highlight: 10Mg/Vial Ghrp 2 Peptide Powder, 158861-67-7 Growth Hormone Peptide, Ghrp 2 Hgh Peptide

## Product Description

### GHRP 2 Growth Hormone Releasing Peptide 99% Purity 10Mg/Vial

#### Product Details Of GHRP 2 :

|               |                        |
|---------------|------------------------|
| Product Name  | GHRP 2                 |
| Appearance    | White powder           |
| Specification | 10mg/vial, 10vials/Box |
| Assay         | 99%                    |
| Test          | HPLC                   |
| CAS           | 158861-67-7            |
| MF            | C42H50N8O5             |
| MW            | 746.897                |

#### What Is GHRP 2?

Growth Hormone Releasing Peptide-2 (GHRP-2), also known as Pralmorelin, is a synthetically made growth hormone secretagogue, a peptide that stimulates the body to increase natural production of growth hormone. GHRP-2 is an agonist of ghrelin, a gut peptide and also known as "the hunger hormone", which binds to the growth hormone secretagogue receptor. Ghrelin has been shown to stimulate growth hormone secretion and appetite initiation.

#### Usage Of GHRP 2

GHRP-2 is used to increase muscle mass, decrease body fat, and enhance flexibility and joint health. GHRP-2 also promotes better recovery from injuries and training. GHRP-2 is also functions to improve sleep, enhance anti-aging benefits, and improved overall health and wellness. Higher growth hormone levels also lead to greater production of IGF-1 in the body, which improves in lean body composition, accelerates growth of muscle tissue and reduces body fat. GHRP-2 promotes significant increase in strength and endurance, especially when used long term. Athletic performance, physical capacity, and aging-related decline all have the ability to improve drastically with the use of this peptide.

GHRP-2 is widely regarded as one of the most effective growth hormone releasing peptides for both athletic performance and anti-aging effects. It promotes substantial increases in the body's output of growth hormone while minimizing the powerful hunger side effects associated with GHRP-6. This may lead to significant improvements in lean body composition.

#### Benefits Of GHRP 2 :

- 1.Improvement of recovery from injuries and healing from surgery
- 2.Increase in lean body composition and body fat reduction.
- 3.Acceleration of muscle tissue growth and increase of muscle mass
- 4.Increase in energy, endurance and flexibility
- 5.Improvement in sleep, which enhances mood and productivity
- 6.Promotion of anti-aging benefits, the immune system and overall wellness

#### Feedback Of GHRP 2 :

订单编号: 16776999001020388

#### 99% Peptides melanotan2 acetate / melanotan...

It was very straight forward to deal with this company. The items were sent very fast I had timed deadlines (arrived in the UK less than 1 week). The quality was great and I am currently continuing to do business with them. Thank you Shaanxi Hongbaiyi Biotech!

Dear Andre,

Many thanks for your support and compliment. We will provide excellent quality and service as always.

Wish you booming business!

Looking forward to new cooperations soon!

Amber
