

## 99% Purity Human Growth Peptide GHRP 2 For Muscle Building

Our Product Introduction

### Basic Information

- Place of Origin: China
- Brand Name: Hongbaiyi
- Certification: COA, HPLC MR
- Model Number: HBY-GHRP2
- Minimum Order Quantity: 5 boxS
- Price: US\$ 45-55/ box
- Packaging Details: 10mg/vial, 10vials/Box
- Delivery Time: 3~5 days, upon receipt of payment
- Payment Terms: T/T, Western Union, MoneyGram
- Supply Ability: 5000 boxes per month

### Product Specification

- Product Name: GHRP 2
- CAS No.: 158861-67-7
- Molecular Formula: C42H50N8O5
- Molecular Weight: 746.897
- Appearance: White Powder
- Storage: 2~8 °C
- Shelf Life: 2 Years, When Proper Storage
- Highlight: **Muscle Building Bio Peptide Ghrp 2, 99% Ghrp 2 Peptide Powder, Human Growth Peptide 158861-67-7**

## Product Description

### 99% Purity Human Growth Peptide GHRP 2 For Muscle-Building

#### Product Details Of GHRP 2 :

Product Name	GHRP 2
Appearance	White powder
Specification	10mg/vial, 10vials/Box
CAS NO.	158861-67-7
Molecular Formula	C42H50N8O5
Molecular Weight	746.897
Purity	99%

#### What Is GHRP 2 ?

GHRP-2 (Growth Hormone Releasing Hexapeptide) is a synthetic ghrelin analogue. Similar to ghrelin, it stimulates the release of endogenous growth hormone in the anterior pituitary.

To start to understand GHRP 2, first we must look at ghrelin. Ghrelin is a hormone that can be found in the stomach. It is produced and released by the stomach; but it has also been known to release in small amounts by the small intestines, brain, and pancreas. Deemed the "hunger hormone" one of its main functions is to stimulate appetite. By default, this then increases food intake and promotes fat storage. Of course, this is both a good thing and a bad thing. Of course, we all don't want to gain weight in the form of fat. However, this can also benefit you as you work out because you expend the fat as energy. So, what does this have to do with GHRP 2?

GHRP 2 is considered a synthetic agonist of ghrelin, meaning that it creates a physiological response when paired with a growth hormone receptor. In the case of GHRP 2, it aids in the secretion of growth hormone. The acronym GHRP quite literally translates to growth hormone releasing peptide.

Since GHRP 2 can bind to growth hormone secretagogue receptors it has been extensively studied for its abilities to help with growth hormone secretion as well as appetite and the consumption of food. The synthetic peptide itself consists of six amino acids and is a non-glycosylated polypeptide, in other words, it is a peptide that doesn't attach to glycans or proteins.

#### Benefits Of GHRP 2

1. Increased muscle mass
2. Decreased body fat
3. Better flexibility
4. Improved joint health

It can also help injuries heal faster-than-usual and help improve your body by accelerating muscle tissue growth. In some cases, it boosts your mood and memory, improves skin tone, and even eliminates cellulite.

#### FAQ Of GHRP 2
