

stubborn fat Lyophilized Powder Aod Fat Burner AOD 9604 CAS 221231-10-

3

Our Product Introduction

Basic Information

- Place of Origin: China
- Brand Name: Hongbaiyi
- Certification: COA, HPLC MR
- Model Number: HBY-AOD-9604
- Minimum Order Quantity: 5 boxes
- Price: Negotiable
- Packaging Details: 5mg/vial, 10vials/box
- Delivery Time: 3-5 work days after your payment
- Payment Terms: MoneyGram, Western Union, T/T
- Supply Ability: 20,000boxes/Month

Product Specification

- Product Name: AOD-9604
- CAS NO.: 221231-10-3
- Chemical Formula: C78H123N23O23S2
- MW: 1815.08
- Peptide Purity: >99%
- Storage: Closed, Below 2 ~ 8°C Preservation
- Shelf Life: 2 Years
- Specification: 5mg/vial, 10vials/box

Product Description

Stubborn Fat Lyophilized Powder Aod Fat Burner AOD 9604 CAS 221231-10-3

Basic Information Form of AOD 9604

Product Name	AOD 9604
CAS NO.	221231-10-3
Peptide Purity	99%
Chemical Formula	C78H123N23O23S2
Molecular Weight	1815.08
Appearance	White Powder
Storage	Closed, below 2 ~ 8°C preservation
Stability	2 years

WHAT IS AOD 9604?

Also known as Advanced Obesity Drug (AOD), this product can be almost a weight loss miracle for those who want to become thin. It is a peptide and fragment of human-growth hormone (H-GH) that has the natural ability to stimulate the pituitary gland and regulate fat metabolism, helping to burn fat and calories. Recent clinical studies have shown that it can reduce body fat in the mid-abdominal region in obese, overweight, and average-sized people.

AOD 9604 fat-burning peptide was originally developed as an anti-obesity drug, but today it is marketed to individuals to help them burn fat and lose weight. AOD 9604 is a modified form of H-GH (human-growth hormone). This drug comes in injectable form and works by helping to stimulate the body's pituitary gland, just like GH and other growth hormones. This will cause your body to speed up your metabolism and improve your weight loss.

HOW DOES AOD 9604 WORK TO TIP THE SCALES TO YOUR BENEFIT?

This remarkable peptide works by mimicking the way natural GH regulates fat metabolism, but without adverse effects on blood sugar or tissue growth. It stimulates the release of fat from adipose tissue and prevents more fat accumulation. It has the extraordinary ability to target abdominal fat storage.

According to the literature, this naturally powerful peptide has shown impressive effects, including

- Assisting in fat burning by increasing fat metabolism
- Reducing overall body fat
- Inducing fat release
- Preventing the conversion of non-fatty foods into body fat
- Assisting in bone and cartilage repair

These benefits lead to greater weight loss without increasing appetite or negatively impacting blood sugar levels.
