AOD 9604 Peptides CAS 221231-10-3

Our Product Introduction

Basic Information

- Place of Origin: China
- Brand Name: Hongbaiyi
- Certification: COA, HPLC MR
- Model Number: HBY-AOD-9604
- Minimum Order Quantity: 5boxes
- Price: US $ 55-67/ box
- Packaging Details: 2mg/vial, 10vials/box
- Delivery Time: 3-5 work days after your payment
- Payment Terms: , Western Union, T/T
- Supply Ability: 20,000boxes/Month

Product Specification

- Peptide Name: Aod For Sale
- Molecular Formula: C78H123N23O23S2
- CAS NO.: 221231-10-3
- Molecular Weight: 1815.08
- Storage: Closed, Below 2 ~ 8ºC Preservation
- Purity: >99%
- Shelf Life: 2 Years
- Form: Whiite Powder

Product Description

Basic Information Form of Buy AOD 9604 for Sale

Product Name	AOD for Sale
CAS NO.	221231-10-3
Appearance	White Powder
Molecular Formula	C78H123N23O23S2
Molecular Weight	1815.08
Purity	99%
Storage	Closed, below 2 ~ 8ºC preservation
Stability	2 years

What Is Aod for Sale?

AOD 9604 fat-burning peptide was originally developed as an anti-obesity supplement, but today it is marketed to individuals to help them burn fat and lose weight.AOD 9604 is a modified form of H-GH. This comes in injectable form and works by helping to stimulate the body's pituitary gland, just like H-GH and other growth hormones. This will cause your body to speed up its metabolism and improve your weight loss results.

Because this stimulates lipolysis, regulates fat metabolism, and inhibits lipogenesis, people can burn more fat and calories than they would on their own. People will notice more weight loss in a shorter period of time than with a regular diet and exercise. They may also notice fewer side effects than some people typically experience when using H-GH supplements to lose weight.

Uses of AOD 9604 Peptide for Sale

To use AOD 9604 fat-burning peptide, inject it subcutaneously. This is important when injecting H-GH because it allows it to enter the bloodstream for immediate results. Use this injection first thing in the morning on an empty stomach. There are many benefits that you can get from using this product. Some of the best benefits that you can get include:

Reduces body fat
Triggers fat release and boosts metabolism
It helps in the repair of bones and cartilage
Increases the number of calories you can burn
No effect on blood sugar or growth
Mimics the process H-GH uses to regulate fat metabolism

People often confuse AOD 9604 with H-GH 176-191, but there is a clear difference between these two options. H-GH 176-191 is a synthetic form of the amino acids 176-191. These amino acids are known to target fat cells, as well as improve your body's ability to burn fat. While this may work similarly to AOD 9604, the problem with H-GH 176-191 is that it stimulates your body to produce insulin-like growth factor-1 (IGF-1), which increases IGF-1 in the blood. This is a problem because high levels in the blood can cause damage to the heart, joints, and liver. This can also negatively affect your body's glucose levels, which can lead to hypoglycemia.
This is why AOD 9604 is considered a safer option because it does not have an effect on your blood sugar levels. It is also important to know that H-GH 176-191 is banned in different tissues, further indicating that AOD 9604 should be your choice.
