

Mw1815.08 Human-Growth Hormone Peptide AOD 9604 For Muscle Building

Our Product Introduction

Basic Information

- Place of Origin: China
- Brand Name: Hongbaiyi
- Certification: COA, HPLC MR
- Model Number: HBY-AOD-9604
- Minimum Order Quantity: 5boxes
- Price: Negotiable
- Packaging Details: 5mg/vial, 10vials/box
- Delivery Time: 3-5 work days after your payment
- Payment Terms: MoneyGram, Western Union, T/T
- Supply Ability: 20,000 boxes/month

Product Specification

- Product Name: AOD 9604
- CAS NO.: 221231-10-3
- Molecular Formula: C78H123N23O23S2
- Molecular Weight: 1815.08
- Peptide Purity: 99%
- Storage: Closed, Below 2 ~ 8°C Preservation
- Shelf Life: 2 Years
- Specification: 5mg/vial, 10vials/box

Product Description

Mw1815.08 Human-Growth Hormone Peptide AOD 9604 For Muscle Building

Basic Information Form of AOD 9604

Name	AOD 9604
CAS NO.	221231-10-3
Peptide Purity	>99%
Molecular Formula	C78H123N23O23S2
Molecular Weight	1815.08
Appearance	White Powder
Storage	Closed, below 2 ~ 8°C preservation
Stability	2 years

What is peptide AOD 9604?

Firstly, peptide AOD 9604 is a modified form of amino acid 176-191, originally used as an anti-obesity drug. Once injected, this hormone derivative stimulates the pituitary gland, which in turn speeds up metabolism and burns body fat. Overall, the peptide AOD 9604 greatly improves the effects of dietary restriction and exercise.

How does the AOD 9604 peptide therapy work?

This FDA-approved peptide therapy has the unique ability to target areas of the body with abnormally high levels of fat and works wonders when combined with exercise and a low-calorie diet. AOD 9604 contains the same amino acids found in the naturally occurring growth hormone (GH). Peptide AOD 9604 has two main methods of regulating body fat:

Stimulates lipolysis - breaks down fats and lipids by hydrolyzing triglycerides into glycerol and fatty acids.

Inhibiting lipogenesis - the metabolic process that forms fats (even from non-fatty foods) and increases the number of triglycerides in the body.

In addition, AOD 9604 contains the same amino acids as those found in the naturally occurring growth hormone (GH).

How should I store AOD 9604?

Once the vial is opened, the reconstituted peptide will be broken down at high temperatures. In addition, when you are on an empty stomach, the injected peptide will be absorbed into the bloodstream more quickly. For best results, if you are taking other medications and supplements, check with your doctor for the best timing and dose levels.

Important things to consider when storing AOD 9604 include:

Store at a cool temperature (36 to 46 degrees Fahrenheit)

Check the manufacturer's use-by date

Take on an empty stomach

In addition, injected peptides are absorbed into the bloodstream more quickly when you are in a fasted state. For best results, if you are taking other medications and supplements, check with your doctor for the best time and dosage levels.

Who May Benefit from Peptide AOD 9604?

Researchers have also found that the benefits of AOD 9604 are not limited to fat loss, as it also contains a variety of other regenerative properties that may be beneficial to people with:

- Osteoarthritis or osteoporosis
- Hypercholesterolemia
- Worn cartilage
- Depression
- Diabetes
- Bone damage

One of the most significant benefits that AOD 9604 brings is the ability to help regulate blood sugar and manage insulin levels. This in turn will help with inflammation and weight loss. Just like growth hormone, AOD 9604 also strengthens muscle building.
