

Lyophilized Thymosin Beta 4 Injection COA Thymosin Beta 4 Muscle Growth

Our Product Introduction

for more products please visit us on peptide-powder.com

Basic Information

- Place of Origin: China
- Brand Name: Hongbaiyi
- Certification: HPLC, MS, COA
- Model Number: HBY-TB 500
- Minimum Order Quantity: 5 boxes
- Price: Negotiable
- Packaging Details: 5mg/10mg/vial, 10vials/box
- Delivery Time: Receive advance payment, within 3-5 days
- Payment Terms: Paypal, L/C, Moneygram, Western Union, T/T
- Supply Ability: 20,000 boxes/per month

TB 500

Product Specification

- Purity: 99%
- Molecular Weight: 4963.4406
- Product Name: TB 500 Peptide
- CAS No.: 77591-33-4
- Source: Synthetic
- Storage: Lyophilized Peptides Although Stable At Room Temperature For 3 Months, Should Be Stored Desiccated Below -18°C. Upon Reconstitution Of The Peptide It Should Be Stored At 4°C Between 2-21 Days And For Future Use Below -18°C.
- Molar Mass: 890
- Molecular Formula: C₂₁₂H₃₅₀N₅₆O₇₈S
- Highlight: Lyophilized Thymosin Beta 4 Injection,

Product Description

Product Description:

What is TB-500?

TB-500 is a synthetic analogue of thymosin-beta-4 (TB4), a naturally occurring regenerative peptide common to most animal and human cells. Its structure is composed of 43 amino acids, and it plays a key role in wound healing processes, largely by regulating cell migration and stimulating blood vessel growth. After injury, TB4 is released by platelets and macrophages, reducing the chances of inflammation, cellular damage, and infection.

TB-500 has equivalent biological activity to TB4 and both show beneficial effects in clinical trials. This includes enhanced healing in different tissues types, in addition to anti-aging and cardiovascular advantages. TB4 is also currently being studied as a potential treatment for cardiometabolic and inflammatory diseases like myocardial infarction, ulcerative colitis, keratitis, and renal fibrosis.

Features:

Product Name: TB 500 Peptide

Purity: 99%

Molar Mass: 890

Molecular Weight: 4963.4406

CAS No.: 77591-33-4

Source: Synthetic

Benefits: TB 500 injection for muscle growth, increased endurance and recovery; TB 500 hair growth for hair growth and enhanced hair health; TB 500 hair growth reviews for customer satisfaction

Applications:

What does TB-500 do? Researchers and clinicians believe that TB-500 is functionally identical to TB4, which has received attention for its anti-inflammatory, anti-fibrotic, and protective effects throughout the body. Specifically, TB4 upregulates vascular endothelial growth factor (VEGF) and actin, thereby promoting **angiogenesis and cell migration**, which are important in the healing process, and modulating cytokine levels - all of which contributes to the overall integrity of cardiovascular and connective tissue.

Clinicians are particularly interested in its ability to repair cardiac and neural tissue after ischemic events. Its anti-inflammatory properties give it the potential to treat liver, kidney, and heart injury and inflammatory bowel disease, and to significantly reduce oxidative stress and attenuate fibrosis to improve healing.

Customization:

TB 500 Peptide Customized Services

Brand Name: Hongbaiyi

Model Number: HBY-TB 500

Place of Origin: China

Certification: HPLC, MS, COA

Minimum Order Quantity: 5 boxes

Price: Negotiable

Packaging Details: 5mg/10mg/vial, 10vials/box

Delivery Time: Receive advance payment, within 3-5 days

Payment Terms: Paypal, L/C, Moneygram, Western Union, T/T

Supply Ability: 20,000 boxes/per month

Packing: 1mg/vial

Expiry Date: 2022-12-31

Storage: Lyophilized Peptides Although Stable At Room Temperature For 3 Months, Should Be Stored Desiccated Below -18°C. Upon Reconstitution Of The Peptide It Should Be Stored At 4°C Between 2-21 Days And For Future Use Below -18°C.

Source: Synthetic

Shipping Method: DHL/UPS/FedEx/TNT/EMS

We provide customized services for TB 500 Peptide. Our TB 500 Peptide is of high quality and has been certified by HPLC, MS and COA. It has a shelf life of two years and a minimum order quantity of five boxes. It can be used for tb 500 injection, tb 500 peptide buy, tb 500 injection dosage, tb 500 peptide for sale. We guarantee fast delivery and secure payment methods such as Paypal, L/C, Moneygram, Western Union, T/T. We can supply up to 20,000 boxes per month with a competitive price. Come and contact us for further details.

Packing and Shipping:

TB 500 Peptide Packaging and Shipping:

TB 500 Peptide is packaged in small plastic vials, with each vial containing 5mg of the peptide. All vials are labeled with a unique number and expiration date. TB 500 Peptide is shipped via overnight courier service in temperature-controlled packaging to ensure the potency and safety of the product.
