

99% Pure Healing Peptides TB-500 / Thymosin Beta-4 2mg/Vial 10vials/Box

Basic Information

- Place of Origin: China
- Brand Name: Hongbaiyi
- Certification: COA, HPLC MR
- Model Number: HBY-TB 500 Peptide
- Minimum Order Quantity: 5 box
- Price: US \$ 40-45/ Box
- Packaging Details: 2mg/vial, 10vials/Box
- Delivery Time: 3~5 days, upon receipt of payment
- Payment Terms: T/T, Western Union, MoneyGram
- Supply Ability: 5000 boxes per month

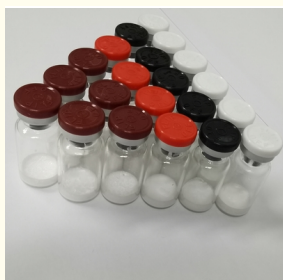

Product Specification

- Product Name: TB 500
- CAS No: 77591-33-4
- Appearance: White Lyophilized Powder
- Molecular Formula: C212H350N56O78S
- Molecular Weight: 4963.44
- Storage: Keep In Dark Place, Inert Atmosphere, Store In Freez
- MOQ: 5 Box
- Highlight: 2mg/Vial Thymosin Beta-4 Peptide, TB-500 Pure Healing Peptides, Thymosin Beta-4 Healing Peptides

Product Description

99% pure HEALING PEPTIDES TB-500 / Thymosin Beta-4 2mg/vial, 10vials/Box

Product Details of TB 500 :

Product Name	99% pure HEALING PEPTIDES TB-500 / Thymosin Beta-4 2mg/vial, 10vials/Box
Appearance	White powder
Specification	2mg/vial, 10vials/Box
Purity	99%
Test	HPLC
CAS	77591-33-4
MF	C212H350N56O78S
Storage	Keep in Dark Place, Inert Atmosphere, Store in Freez

Description Of Tb500

TB-500 is a synthetic version of the natural thymic peptide beta-4. Research on TB-500 often refers to it as synthetic thymosin beta-4.

There have been no human studies of TB-500, but due to the regenerative properties of thymosin beta-4, this peptide is currently the subject of active research.

Thymosin beta-4 is present in every cell in the body except red blood cells and is thought to play a role in angiogenesis, wound healing, cell proliferation, differentiation, and migration.

If you are a researcher looking to incorporate TB-500 into your work, this guide will provide you with the most up-to-date information about TB-500's mechanism of action, uses, and side effects.

We will also provide details on how to formulate and use TB-500 in a research setting and where to purchase 99% pure TB-500 online.

How does TB-500 Guaiac Peptide work?

TB-500 works by building new blood vessels and muscle tissue fibers while assisting in new cell migration and blood cell multiplication. The principle of action is its ability to upregulate cell-building proteins such as actin. Actin is a protein that, along with myosin, forms the contractile filaments of muscle cells. It speeds up healing time and promotes cell growth, migration, and proliferation. Once injected, it finds the site of injury and repairs damaged tissue.

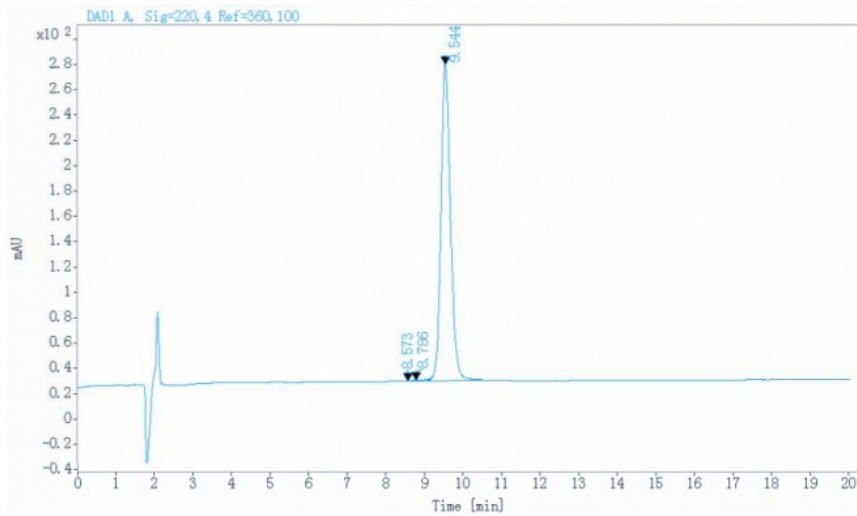

Benefits of TB-500

TB-500 is a synthetic peptide with many benefits and no known side effects, making it ideal for those seeking muscle growth and fast healing. TB-500 is considered one of the best peptides for treating tendons, ligaments, muscles, and skin, and it has even been shown to be helpful for eye injuries and heart conditions. People who have used TB-500 after a heart attack have recovered faster.

Not only does it help in these areas, but it also builds strength through muscle growth. Using TB-500 also speeds up healing time:

- Improve endurance
- Reduce acute and chronic pain, spasms and inflammation
- Protect and restore neurons after brain injury
- Aid in hair regeneration
- Increase flexibility

Data file: E:\DATA\190102\190102 2019-01-02 17-30-23\800034 18110017Final.D
Sample name: 800034 18110017Final
Description: Mobile phase:Buffer A:0.1%TFA in H2O
 Buffer B:0.1%TFA in ACN
 Gradient:18-28% unitary C18, 4.6*150mm, 5um 100A (A-005)
 Instrument:Agilent HPLC 1100
Instrument: QC **Location:** 51
Injection date: 2019/1/2 20:15:17 **Injection:** 1 of 1
Last changed: 2019/1/3 14:02:07 **Injection volume:** 10.000
Acq. operator: QC_1

Signal: DAD1 A, Sig=220,4 Ref=360,100
