

5mg/Vial 10vials/Box TB 500 Thymosin Beta 4 Peptide 99% Purity For Sale

Our Product Introduction

for more products please visit us on peptide-powder.com

Basic Information

- Place of Origin: China
- Brand Name: Hongbaiyi
- Certification: COA, HPLC MR
- Model Number: HBY-TB500
- Minimum Order Quantity: 5 boxes
- Price: Negotiable
- Packaging Details: 5mg/vial, 10vials/box
- Delivery Time: 3-5 work days after your payment
- Payment Terms: MoneyGram, Western Union, T/T
- Supply Ability: 4000kg/Month

Product Specification

- Item: Tb 500 For Sale
- Outlook: White Powder
- Specification: 5mg/vial, 10vials/box
- Purity: >99%
- CAS: 77591-33-4
- Grade: Medicine Grade
- MW: 4963.49
- MF: C212h350n56o78S
- Highlight: **Medicine Grade Thymosin Beta 4 Peptide, 99% Purity Thymosin Beta 4 Peptide, 10vials/Box TB 500**

Product Description

5mg/Vial, 10vials/Box Tb 500 Thymosin Beta 4 Peptide 99% Purity For Sale

Basic Information form of 5mg/Vial Tb 500 Thymosin Beta 4 Peptide 99% Purity For Sale

Item	Tb 500 Thymosin Beta 4 Peptide For Sale
Cas No.	77591-33-4
Purity	99%
Appearance	White powder
MF	C ₂₁₂ H ₃₅₀ N ₅₆ O ₇₈ S
Molecular Weight	4963.49
Attention Terms	Store at -20°C

What is 5mg/Vial Tb 500 Thymosin Beta 4 Peptide 99% Purity For Sale?

TB-500 is a synthetic peptide that mimics the effects of the naturally occurring thymosin beta-4 peptide. It is a research chemical that has been shown to promote wound healing, muscle repair, joint and tissue strength, and endothelial health in both test-tube and animal studies, as well as a small number of human trials.

TB-500 was developed in the early 1960s for veterinary purposes, and it was rumored to be widely used in competitive horse racing at the time. This led to the development of testing measures to detect TB-500 in racehorses.

TB-500, thymosin beta-4, and all other derivatives thereof are now banned from competitive horse racing, as well as all sporting competitions subject to the Code of the World Anti-Doping Agency (WADA).

Despite this, research on TB-500 is ongoing, and the peptide is of particular interest to researchers studying anti-aging, wound healing, inflammation, and cardiovascular health, among other diverse applications.

Applications of 5mg/Vial Tb 500 Thymosin Beta 4 Peptide 99% Purity For Sale

TB-500 is a synthetic peptide that mimics the effects of the naturally occurring thymosin beta-4 peptide. Thymosin beta-4 is a signaling molecule that plays a role in wound healing, tissue regeneration, and immune system regulation.

TB-500 is being investigated for a variety of potential applications, including:

Wound healing: TB-500 Thymosin Beta 4 has been shown to promote wound healing in both animal and human studies. It may be particularly beneficial for chronic wounds, such as diabetic ulcers and pressure sores.

Muscle repair: TB-500 Thymosin Beta 4 has been shown to promote muscle repair and reduce inflammation in animal studies. It is being investigated as a potential treatment for muscle injuries, such as muscle strains and tears.

Joint and tissue strength: TB-500 Thymosin Beta 4 has been shown to promote joint and tissue strength in animal studies. It is being investigated as a potential treatment for joint conditions, such as arthritis and osteoarthritis.

Endothelial health: TB-500 Thymosin Beta 4 has been shown to improve endothelial function in animal studies. The endothelium is the lining of the blood vessels, and it plays an important role in blood pressure regulation and blood flow.

Anti-aging: TB-500 Thymosin Beta 4 is being investigated as a potential anti-aging therapy. It has been shown to improve cognitive function and reduce inflammation in animal studies.

However, it is important to note that TB-500 is still in the early stages of research, and more studies are needed to confirm its safety and efficacy for these applications.

Package and Shipping of 5mg/Vial Tb 500 Thymosin Beta 4 Peptide 99% Purity For Sale

Package: 5mg/vial, 10vials/box

Shipping: With 3-5days after your payment
