

Factory Price High Quality 99% Purity PE 22-28 5/10/15mg Cosmetic Powder

Basic Information

- Place of Origin: China
- Brand Name: Hongbaiyi
- Certification: COA, HPLC MR
- Model Number: HBY-PE-22-28
- Minimum Order Quantity: 5 boxes
- Price: Negotiable
- Packaging Details: 5mg 10mg 15mg 20mg 30mg per vial or Customized specification is accepted
- Delivery Time: 3-5 work days after your payment
- Payment Terms: MoneyGram, Western Union, T/T
- Supply Ability: 20,000 boxes /month

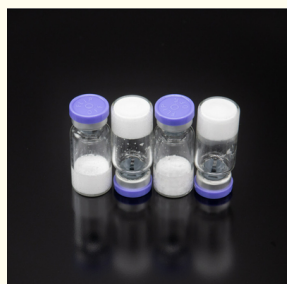

Product Specification

- Product Name: PE-22-28 5mg
- Contents: PE-22-28
- MW: 773.9
- CAS Number: 1801959-12-5
- Purity: $\geq 98\%$
- Storage Conditions: -20°C
- MF: $\text{C}_{35}\text{H}_{55}\text{N}_{11}\text{O}_9 \cdot \text{XC}_2\text{H}_4\text{O}_2$
- Size: 5mg, 10mg

Product Description

Factory Price High Quality 99% Purity PE 22-28 5/10/15mg Cosmetic Powder

Products Description

Product name	PE 22-28 10mg
Specifications	10mg 10vials/box
Other name	Cosmetic powder
MOQ	5 kits
Shipping time	3-7 work days
Express	FedEx, UPS, DHL, TNT, EMS by air/ship
Payment methods	T/T

How does PE-22-28 work?

PE-22-28 is a small protein-like molecule that blocks the TREK-1 channel, a channel involved in brain and mood control. Blocking TREK-1 helps brain cells become more active and improves connections between them.

Studies have shown that it can support cell growth. It is being studied as a possible treatment for brain disorders.

What are the potential benefits of PE-22-28?

Researchers are studying several potential benefits of PE-22-28, including the following:

PE-22-28 may help reduce stress and depression

It may improve brain cell activity and connectivity

PE-22-28 may support brain cell growth (neurogenesis)

Research suggests that it may enhance mood and emotional stability

It may protect brain cells from damage

It may help treat brain disorders

NOTE: It is used strictly for research purposes and should not be consumed for human consumption without approval.

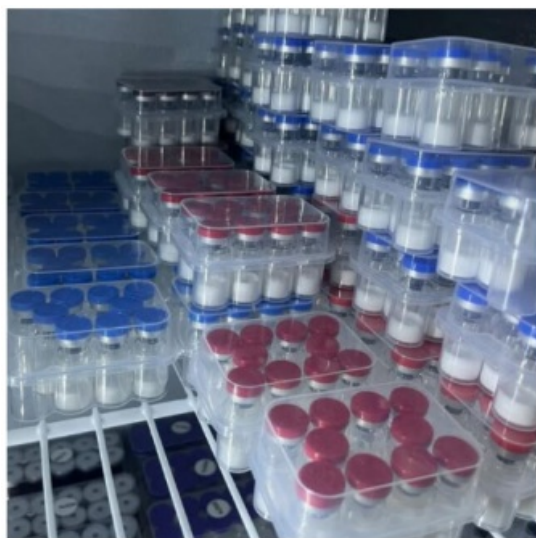

PE-22-28 may promote muscle relaxation

PE-22-28 helps regulate muscle activity by blocking TREK-1 channels. This reduces muscle tension and promotes muscle relaxation. This effect may help relieve muscle stiffness or spasms. Researchers are exploring its role in improving muscle function.

PE-22-28 may help treat depression

PE-22-28 may increase the activity of brain cells and strengthen the connections between them. This process has been linked to improved mood regulation and stress reduction. Research suggests that it may have antidepressant effects by balancing brain chemicals. It may be a potential treatment for depression.

FAQ

Q1: Can I get some samples?

A: Yes, we can provide samples. However, customers must bear the shipping cost.

Q2: How to pay?

A: We accept various payment methods, including T/T and other options.

Q 3: What is your MOQ (Minimum Order Quantity)?

A: Our standard MOQ is 5kits. However, smaller quantities, such as 100 grams, can be arranged for a corresponding sample fee.

Q 4: What is the shipping time?

A: Orders are usually shipped within 3-7 days with a tracking number. Delivery times vary by destination. Please get in touch with us for details.
