

## Achieve Radiant Skin and Vascular Protection with Vesugen 20mg Bioregulator The Revolutionary Cosmetic Peptide

### Our Product Introduction

#### Basic Information

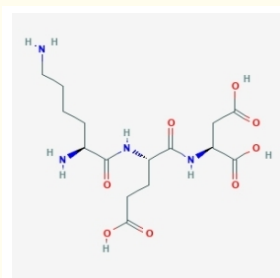

- Place of Origin: China
- Brand Name: HBY
- Certification: COA, HLPC, MR
- Model Number: HBY-Vesugen
- Minimum Order Quantity: 5boxes
- Price: US\$51-53/box
- Packaging Details: 20mg/vials 10vials/box
- Supply Ability: 20000 boxes/permonth

## Product Description

### Vesugen 20mg (Bioregulator)

Vesugen is a bioregulator and geroprotective tripeptide. Research has shown it to protect the vascular system from the effects of aging by limiting the development of atherosclerosis and decreasing overall endothelial cell dysfunction. Systems that are sensitive to vascular damage and decline therefore show the most obvious effects from Vesugen administration. These systems include the central nervous system and cardiovascular system. Vesugen appears to play a prominent role in regulating sirtuin 1 protein levels. Sirtuin 1 has important effects on metabolic processes and helps to reduce the effects of aging. Sirtuin 1 is activated as a result of calorie restriction and is therefore thought to be one of the proteins responsible for the profound anti-aging effects associated with calorie restriction.

### Vesugen Structure

Amino Acid Sequence: Lys-Glu-Asp (KED)  
Molecular Formula: C<sub>15</sub>H<sub>26</sub>N<sub>4</sub>O<sub>8</sub>  
Molecular Weight: 390.39 g/mol  
PubChem CID: 87571363  
Synonyms: lysylglutamyl aspartic acid, SCHEMBL3767701, CHEBI:159909
