

Vesugen 99% Pure – 5/10/15mg/vial | Tripeptide (Ala-Glu-Asp | AED) Vascular Repair Bioregulator

Our Product Introduction

Basic Information

- Place of Origin: China
- Brand Name: Hongbaiyi
- Certification: COA, HPLC MR
- Model Number: HBY-Vesugen
- Minimum Order Quantity: 5 boxes
- Price: Negotiable
- Packaging Details: 5/10/15mg/vial, 10vials/Box
- Delivery Time: 3~5 days, upon receipt of payment
- Payment Terms: T/T, Western Union, MoneyGram
- Supply Ability: 5000 boxes per month

Product Specification

- Product Name: Vesugen Peptide
- Product Category: Collagen Peptide
- Molecular Formula: C₁₅H₂₆N₄O₈
- Molecular Weight: 390.39 G/mol
- Appearance: White Lyophilized Powder
- Purity: ≥99% (HPLC/LC-MS)
- Sequence: Lys-Glu-Asp (KED)
- Source: Synthetic Peptide
- Highlight: Vesugen peptide vascular repair,
Ala-Glu-Asp peptide supplement,
Vesugen collagen peptide AED

Product Description

Vesugen is a biological regulator and geroprotective tripeptide. Research shows that it can protect the vascular system from aging by limiting the development of atherosclerosis and reducing the overall endothelial dysfunction. Therefore, systems that are sensitive to vascular injury and decline exhibit the most significant effects of Vesugen administration. These systems include the central nervous system and the cardiovascular system. Vesugen seems to play an important role in regulating the levels of sirtuin 1 protein. Deacetylase 1 has a significant impact on metabolic processes and helps reduce the effects of aging. Sirtuin 1 is activated due to calorie restriction and is therefore considered one of the proteins responsible for the profound anti-aging effects associated with calorie restriction.
