

Thymagen 99% Pure – 5/10/15mg/vial | Immune Modulator Dipeptide (Glu-Trp | EW) | T-Cell Enhancer

Our Product Introduction

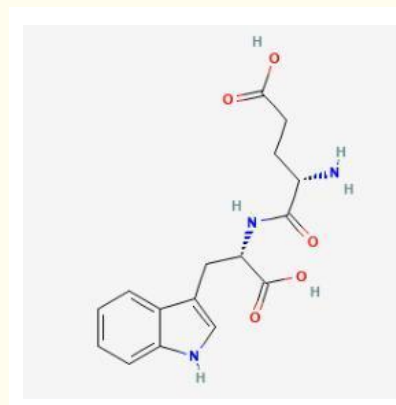

Basic Information

- Place of Origin: China
- Brand Name: Hongbaiyi
- Certification: COA, HPLC MR
- Model Number: HBY-Thymagen
- Minimum Order Quantity: 5 boxes
- Price: Negotiable
- Packaging Details: 5/10/15mg/vial, 10vials/Box
- Delivery Time: 3~5 days, upon receipt of payment
- Payment Terms: T/T, Western Union, MoneyGram
- Supply Ability: 5000 boxes per month

Product Specification

- Product Name: Thymagen Peptide
- Product Category: Collagen Peptide
- CAS Number: 38101-59-6
- Molecular Formula: C₁₆H₁₉N₃O₅
- Molecular Weight: 333.34 G/mol
- Appearance: White Lyophilized Powder
- Purity: ≥99% (HPLC)
- Sequence: Glu-Trp (EW)
- Source: Synthetic Peptide
- Highlight: **Thymagen peptide immune modulator, Glu-Trp peptide T-cell enhancer, Collagen peptide with Thymagen**

Product Description

Thymogen is a highly active biological regulatory peptide that primarily acts on immune system cells. It has been proven to increase the production and differentiation of T cells, stimulate the secretion of interferon, increase the level of cyclic nucleotides, and promote the function of the innate immune system. Due to its impact on the innate immune system, Thymagen has also been shown to help prevent cancer and reduce the severity of the disease. Research has shown that thymosin is a useful measure for preventing infections during the perioperative period. It has been proven to improve the recovery rate after surgery and has potential cardioprotective effects.
