

Livagen (Bioregulator) Reduces cardiomyocyte apoptosis post-ischemia Reduces cardiomyocyte apoptosis post-ischemia

Our Product Introduction

Basic Information

- Place of Origin: China
- Brand Name: Hongbaiyi
- Certification: COA, HPLC MR
- Model Number: HBY-Livagen
- Minimum Order Quantity: 5 boxes
- Price: Negotiable
- Packaging Details: 5/10/15mg/vial, 10vials/Box
- Delivery Time: 3~5 days, upon receipt of payment
- Payment Terms: T/T, Western Union, MoneyGram
- Supply Ability: 5000 boxes per month

Product Specification

- Product Name: Livagen Peptide
- Product Category: Collagen Peptide
- Molecular Formula: C₂₆H₄₆N₁₀O₁₀
- Molecular Weight: 646.70 G/mol
- Appearance: White Lyophilized Powder
- Purity: ≥99% (HPLC/LC-MS)
- Sequence: Lys-Glu-Asp-Ala-Arg (KEDAR)
- Highlight: **Livagen bioregulator for heart health,
Collagen peptide with cardioprotective effects,
Livagen reduces cardiomyocyte apoptosis**

Product Description

Livagen is a short biological regulatory peptide that has a direct impact on DNA structure and function. It is best known for its ability to decipher chromatin, thereby increasing the expression of certain genes and improving the "youthful" characteristics of cells. Its impact on immune system lymphocytes is the most extensively studied. Through these cells, Livagen has been shown to activate the immune system and counteract diseases of the heart, gastrointestinal tract, immune system, and central nervous system. Livagen's research also shows hope in the fields of injury perception and pain control. The ongoing research will help further uncover the prospects of Livagen and bring humanity closer to understanding aging and its processes
