Basic Information

- Place of Origin: China
- Brand Name: Hongbaiyi
- Certification: COA, HPLC MR
- Model Number: HBY-Dipeptide-3
- Minimum Order Quantity: 1KG
- Price: Negotiable
- Packaging Details: Aluminum Bag or 25KG/Fibre Drum
- Delivery Time: 3-5 work days after your payment
- Payment Terms: Western Union, T/T, MoneyGram
- Supply Ability: 4000kg/Month

Product Specification

Product Description:

Introducing our Advanced Skincare Peptide, a revolutionary product designed to transform your skincare routine and deliver visible, long-lasting results. This Firming Peptide Treatment harnesses the power of cutting-edge peptide technology to target multiple signs of aging, helping you achieve firmer, smoother, and more youthful-looking skin. Formulated with a unique blend of collagen boosting peptides, this treatment works at the cellular level to stimulate collagen production, enhancing skin elasticity and reducing the appearance of fine lines and wrinkles.

Peptides are short chains of amino acids that serve as the building blocks of proteins like collagen and elastin, which are essential for maintaining the skin's structure and resilience. Our Advanced Skincare Peptide is meticulously crafted with high-performance peptides known for their ability to penetrate the skin barrier and deliver potent anti-aging benefits. Unlike traditional skincare ingredients, this firming peptide treatment actively signals your skin to produce more collagen, which naturally diminishes with age, environmental stressors, and lifestyle factors.

The Collagen Boosting Peptide complex in this product plays a crucial role in restoring the skin's youthful firmness and radiance. By promoting collagen synthesis, it helps to rebuild the skin's matrix, resulting in improved texture and reduced sagging. Users will notice a significant enhancement in skin tone and tightness, as the treatment supports the skin's natural repair mechanisms. This makes it an ideal solution for those seeking to combat age-related skin concerns without invasive procedures or harsh chemicals.

One of the standout features of this Firming Peptide Treatment is its lightweight, fast-absorbing formula that suits all skin types, including sensitive skin. It can be seamlessly incorporated into your daily skincare regimen, whether used in the morning or evening. The Advanced Skincare Peptide serum pairs exceptionally well with moisturizers and sunscreens, amplifying their effectiveness by preparing the skin to absorb subsequent products better. With consistent use, you can expect a firmer, plumper complexion that radiates health and vitality. In addition to its powerful peptide content, this treatment is enriched with complementary ingredients that support skin hydration and protection. These synergistic components work together to enhance the product's overall efficacy, ensuring your skin remains supple and resilient in the face of environmental aggressors such as pollution and UV exposure. The result is a comprehensive anti-aging solution that not only firms but also nourishes and protects your skin.

Our Advanced Skincare Peptide is backed by extensive scientific research and formulated with the highest standards of quality and safety. It is free from parabens, sulfates, and artificial fragrances, making it a clean beauty choice for discerning consumers. Whether you are beginning to notice early signs of aging or are looking for an effective way to maintain youthful skin, this Firming Peptide Treatment offers a reliable and innovative approach to skincare.

Experience the transformative benefits of collagen boosting peptides with this advanced formula that redefines what is possible in skincare. Embrace a firmer, more resilient complexion that looks and feels revitalized. Elevate your skincare routine with our Advanced Skincare Peptide and discover the secret to timeless beauty through science-driven innovation and peptide-powered performance.

Features:

- Cosmetic Peptide designed for deep skin-nourishment
- Contains Hydrating Peptide Serum for enhanced moisture retention
- Supports skin elasticity with Collagen Boosting Peptide
- Lightweight formula absorbs quickly without residue
- Suitable for all skin types, including sensitive skin
- Promotes a smooth, youthful complexion
- Hydrating Peptide Serum helps to reduce fine lines and wrinkles
- Free from parabens, sulfates, and harmful chemicals
- Dermatologist-tested for safety and efficacy

Technical Parameters:

Product Name	Anti-Aging Peptide Complex
Type	Nourishing Peptide Solution
Function	Peptide Enriched Moisturizer
Active Ingredients	Multiple Peptides, Hyaluronic Acid, Vitamins
Formulation	Lightweight Serum
pH Level	5.5 ± 0.5
Application	Apply twice daily to clean skin
Packaging	30ml Airless Pump Bottle
Shelf Life	24 months
Storage	Store in a cool, dry place away from direct sunlight

Applications:

The Hongbaiyi HBV-Dipeptide-3, a premium Cosmetic Peptide product originating from China, is expertly formulated to cater to a wide range of skincare needs. This Skin Repair Peptide Blend is ideal for use in advanced cosmetic formulations aimed at rejuvenating and restoring the skin's natural barrier. Its potent peptide-enriched properties make it a valuable ingredient in Peptide Enriched Moisturizer

products designed to deeply nourish and hydrate the skin, promoting a youthful and radiant complexion.

One of the primary application occasions for the Hongbaiyi HBY-Dipeptide-3 peptide is in anti-aging skincare regimes. The Anti Aging Peptide Complex effectively targets fine lines, wrinkles, and other visible signs of aging by stimulating collagen production and enhancing skin elasticity. This makes it highly suitable for inclusion in serums, creams, and lotions tailored for mature skin or for individuals seeking preventative care against premature aging.

In addition to anti-aging treatments, this peptide blend serves well in formulations aimed at skin repair and recovery. It is often incorporated into products designed to soothe and heal damaged or irritated skin, making it valuable for post-procedure skincare such as after chemical peels, laser treatments, or microdermabrasion. Its skin-repairing benefits support faster regeneration and reduce inflammation, ensuring an accelerated healing process.

The versatile nature of the Hongbaiyi HBY-Dipeptide-3 also allows it to be used in daily skincare products that focus on maintaining skin health and hydration. Whether included in facial moisturizers, eye creams, or masks, this peptide complex enhances the efficacy of the product by providing a boost of bioactive peptides that support skin vitality and resilience.

With certifications such as COA and HPLC MR, the quality and purity of this peptide blend are assured, making it a reliable choice for cosmetic manufacturers. The product is available with a minimum order quantity of 1KG, packaged securely in aluminum bags or 25KG fibre drums to preserve its stability. Backed by a supply ability of 4000kg per month and a delivery time of 3-5 work days after payment via Western Union, T/T, or MoneyGram, Hongbaiyi's HBY-Dipeptide-3 offers both quality and convenience for your cosmetic formulation needs. Pricing is negotiable, ensuring flexibility for various production scales.

Support and Services:

Our Cosmetic Peptide product is designed to enhance skin rejuvenation and promote a youthful appearance. For optimal use, please follow the provided instructions carefully and store the product in a cool, dry place away from direct sunlight.

If you experience any adverse reactions or have questions regarding the application of the product, please discontinue use immediately and consult a healthcare professional.

For technical support, including product usage guidance, formulation advice, and troubleshooting, our dedicated team is available to assist you. We are committed to ensuring your satisfaction and the best possible results from our Cosmetic Peptide.

We recommend reviewing all product documentation thoroughly before use and keeping the packaging for reference. For detailed information about the peptide composition, stability, and compatibility with other cosmetic ingredients, please refer to the product datasheet and safety guidelines.

Your feedback is valuable to us. Please share your experiences and any concerns to help us continue improving our products and services.

Packing and Shipping:

Our Cosmetic Peptide product is carefully packaged to ensure maximum protection and preservation of its quality. Each unit is sealed in an airtight, UV-resistant container to maintain the peptide's stability and potency. The packaging is designed to be both elegant and functional, featuring clear labeling with all necessary usage instructions and ingredient information.

For shipping, we use temperature-controlled methods to safeguard the product during transit, preventing exposure to extreme heat or cold. Each shipment is securely packed with cushioning materials to avoid damage, and tracking information is provided to ensure timely and safe delivery to your doorstep.

FAQ:

Q1: What is the brand and model number of the Cosmetic Peptide product?

A1: The Cosmetic Peptide is branded as Hongbaiyi, and the model number is HBY-Dipeptide-3.

Q2: What certifications does the Hongbaiyi Cosmetic Peptide have?

A2: This product is certified with COA (Certificate of Analysis) and HPLC MR (High-Performance Liquid Chromatography Method Report).

Q3: What is the minimum order quantity and price for the Cosmetic Peptide?
